

The background image shows a person in a maroon shirt standing behind a counter, handling a cardboard box. On the counter, there are several books, a pair of glasses, and a small jar. The setting appears to be a retail or office environment with large windows in the background.

## Finance & Accounting Capability in the Retail & Consumer World

Enhancing operational efficiency, compliance, control, and business enablement

Wipro's suite of transformational F&A solutions, customized for the retail and CPG sectors, creates efficiencies by building design thinking led agile organizations and optimizing cost of operations. We enable a customer-centric and scalable delivery model that encompasses risk management through improved transparency, governance and system-driven controls.

Wipro's next gen digital financial organization for retailers and CPG clients focuses on hyper-automation, and being customer-first and inclusive.

### Key Takeaways

- **Simplification** – Leveraging lean/six sigma and proprietary tools to make business process agile and facilitate automation readiness
- **Automation** –Using RPA, AI, cognitive capabilities and platform solutions to increase efficiencies and operational productivity
- **Intelligence** – Driving proactive actionable insights for strategic decision making through root cause analysis, predictive & prescriptive analytics and interactive management reporting through real-time dashboards
- **Immersive experience** – Creating end-to-end solutions that ensure business continuity, compliance, agility, relationship management, end-user experience, ease of adaptability, transparency, and traceability
