

Enhanced operational efficiency through a global SAP template rollout

Wipro helped reshape the IT infrastructure of a large generics and pharma company, replacing 300+ applications and supporting over 8000 users

INDUSTRY LANDSCAPE

Today Life Sciences companies including generics are looking to define, design, build a global Business Process template and globally run the core processes.

CLIENT BACKGROUND

A large generics and specialty pharmaceutical company with revenues exceeding 5 billion and employing over 15,500 employees all over the world.

THE OPPORTUNITY

- Consolidation of Instances, redefining IT infrastructure landscape, reduce IT costs
- Standardization of business process across multiple plants and businesses
- Integrate global supply chain operations
- Reshape the whole IT infrastructure
- Move client IT delivery from an autonomous multi-country structure to a centralized organization in order to facilitate the 'Run' of Applications and Infrastructures

Single instance of consolidated SAP system replacing 300+ applications

SOLUTION

- Developed a global template encompassing all key business processes (Finance, Order to Cash, Plan to Manufacture, Procurement, Project Systems) across API and FDF businesses
- Developed templates, tools and accelerators around functional design, RICEFW development, Pharma/SAP validation and testing, OCM & Training
- Developed global implementation and validation & testing methodology
- Developed OCM and training strategy
- Global integration with MDM and Planning projects
- Technologies used are
 - SAP R/3 version 4.7
 - SAP Modules Covered: FICO,SD,MM,PP,WM,QM,BI,MDM,
 - Solution Manager

BUSINESS IMPACT

- Successfully deployed across a large API manufacturing in India
- Currently deploying the template across the remaining plants in India
- Successful deployment in Hungary
- Kicked off deployment projects in EMEA
- Deployment planning underway for roll out in APAC (China, Aus/NA, Japan, Taiwan)
- Expert Wipro Pharmaceutical SAP resources helped in defining and setting up the process for a validated environment

8000+ users after worldwide deployment of E1 program
