Scalable and Secure Multi-Cloud Migration and Management with Wipro & du

World-class multi-cloud solutions delivered with local knowledge and experience
Wipro and du deliver market-leading multi-cloud management and migration capabilities that simplify and accelerate digital transformation across the UAE. The partnership enables organizations of all sizes to minimize risk and maximize return on investment when migrating and managing a multi-cloud environment.

du understands local market challenges and, together with Wipro, helps organizations to rethink and redevelop their infrastructure, create new cost-efficiencies and deliver compliant, trusted and secure solutions.

We offer unified cloud management that delivers resource and cost optimization, a secure cloud environment, automation and analytics all via a single pane of glass. We’re taking the complexity out of managing and growing digital infrastructure in the era of multi-cloud.

Enabling customer success

**Trusted advisors on your digital journey**

We make it simple and efficient to migrate from on-premise legacy infrastructure and into the cloud with an end-to-end process-driven approach. Our team of cloud experts ensures the success of our customers’ migrations from Discover, Assess, and Design through to Migration and Hypercare. Every step of the way, the team listens, understands and delivers solutions tailored to our customers’ needs.

**Comprehensive multi-cloud management**

We offer a fully managed multi-cloud environment underpinned with industry-leading tools, proven processes and a team of cloud specialists. Customers gain new visibility and control over their infrastructure while being able to focus on their core business. We provide a single consolidated view of an organization’s digital infrastructure and ensure they maximize the cost benefits of multi-cloud.

**Cloud migration studio**

We enable customers to migrate compute, applications, systems and storage to a cloud environment and benefit from scalability, improved productivity and lowered capital and operating costs. With automated processes, organizations of all sizes can rapidly move to a multi-cloud environment with zero downtime. They can accelerate time-to-market without compromising on security or compliance.

**Locally hosted and highly secure**

Our solutions are hosted in the UAE, ensuring resiliency, reliability and regulatory compliance. Our customers’ mission-critical data stays local while benefiting from du’s dedicated Cyber Defence Centre and commitment to digital trust. We make it easy to manage risk and create a secure foundation for adopting, innovating and optimizing cloud services.

About du

By delivering integrated telecommunication services and ICT solutions, we help organisations build and manage digital platforms that bridge silos of technology innovation and scale up digital transformation. Operating under the umbrella of Emirates Integrated Telecommunications Company (EITC), du is an integral driver of the UAE’s economic, social and digital transformation.
Wipro Limited (NYSE: WIT, BSE: 507685, NSE: WIPRO) is a leading global information technology, consulting and business process services company. We harness the power of cognitive computing, hyper-automation, robotics, cloud, analytics and emerging technologies to help our clients adapt to the digital world and make them successful. A company recognized globally for its comprehensive portfolio of services, strong commitment to sustainability and good corporate citizenship, we have over 200,000 dedicated employees serving clients across six continents. Together, we discover ideas and connect the dots to build a better and a bold new future.
