Everest Group PEAK Matrix™ for KYC-AML BPO Service Providers

Focus on Wipro
June 2018
Introduction and scope

Everest Group recently released its report titled “Know Your Customer – Anti Money Laundering (KYC-AML) BPO – State of the Market with Services PEAK Matrix™ Assessment 2018.” This report analyzes the changing dynamics of the KYC-AML BPO landscape and assesses service providers across several key dimensions.

As a part of this report, Everest Group updated its classification of 19 service providers on the Everest Group PEAK Matrix™ for KYC-AML BPO into Leaders, Major Contenders, and Aspirants. The PEAK Matrix is a framework that provides an objective, data-driven, and comparative assessment of KYC-AML BPO service providers based on their absolute market success and delivery capability.

Based on the analysis, Wipro emerged as a Leader. This document focuses on Wipro KYC-AML BPO experience and capabilities and includes:

- Wipro position on the KYC-AML BPO PEAK Matrix
- Wipro year-on-year movement on the KYC-AML BPO PEAK Matrix
- Detailed KYC-AML BPO profile of Wipro

Buyers can use the PEAK Matrix to identify and evaluate different service providers. It helps them understand the service providers’ relative strengths and gaps. However, it is also important to note that while the PEAK Matrix is a useful starting point, the results from the assessment may not be directly prescriptive for each buyer. Buyers will have to consider their unique situation and requirements, and match them against service provider capability for an ideal fit.

Strengths
- Wipro capitalizes on its wide bouquet of technology capabilities, including its e-KYC HOLMES solution. It has also invested in Avaamo – an Artificial Intelligence process automation firm to further deepen its automation & AI capabilities.
- It has a healthy split across various buyer geographies and also holds a considerable market share in each of the Americas, Europe, and MEA.
- It has a widespread presence across both KYC and AML lines of business and caters to a diverse set of buyers as well, split across small, medium, and large revenue range.

Areas of improvement
- While Wipro has got some of the big deals in KYC-AML BPO space, it needs to further improve its client tally to match up with some of the other leaders and reduce its concentration risk.
- It has the potential to invest more sales energy in the fast-growing APAC region to tap into it.

---

1 Value delivered score and overall PEAK matrix positioning adversely impacted for those service providers who did not provide adequate information.

Everest Group PEAK Matrix™ is a proprietary framework for assessment of market impact and vision & capability

Everest Group PEAK Matrix

Vision & capability
Measures ability to deliver services successfully

Market impact
Measures impact created in the market

Leaders
Major Contenders
Aspirants

High
Low
High
Low
Services PEAK Matrix™ evaluation dimensions

Measures impact created in the market – captured through three subdimensions

**Market adoption**
No. of clients, revenue base, and YOY growth, deal value/volume

**Portfolio mix**
Diversity of client/revenue base across geos and type of engagements

**Value delivered**
Value delivered to the client based on customer feedback and transformational impact

**Vision and strategy**
Vision for the client and itself; future roadmap and strategy

**Scope of services offered**
Depth and breadth of services portfolio across service sub-segments / processes

**Innovation and investments**
Innovation and investment in the enabling areas, e.g., technology IP, industry/domain knowledge, innovative commercial constructs, alliances, M&A, etc.

**Delivery footprint**
Delivery footprint and global sourcing mix

Vision & capability
Measures ability to deliver services successfully. This is captured through four subdimensions

*Major Contenders*
*Leaders*
*Aspirants*
FAQs

Does the PEAK Matrix™ assessment incorporate any subjective criteria?
Everest Group’s PEAK Matrix assessment adopts an unbiased and fact-based approach (leveraging service provider / technology vendor RFIs and Everest Group’s proprietary databases containing providers’ deals and operational capability information). In addition, these results are validated / fine-tuned based on our market experience, buyer interaction, and provider/vendor briefings.

Is being a “Major Contender” or “Aspirant” on the PEAK Matrix, an unfavorable outcome?
No. The PEAK Matrix highlights and positions only the best-in-class service providers / technology vendors in a particular space. There are a number of providers from the broader universe that are assessed and do not make it to the PEAK Matrix at all. Therefore, being represented on the PEAK Matrix is itself a favorable recognition.

What other aspects of PEAK Matrix assessment are relevant to buyers and providers besides the “PEAK Matrix position”?
A PEAK Matrix position is only one aspect of Everest Group’s overall assessment. In addition to assigning a “Leader”, “Major Contender,” or “Aspirant” title, Everest Group highlights the distinctive capabilities and unique attributes of all the PEAK Matrix providers assessed in its report. The detailed metric-level assessment and associated commentary is helpful for buyers in selecting particular providers/vendors for their specific requirements. It also helps providers/vendors showcase their strengths in specific areas.

What are the incentives for buyers and providers to participate/provide input to PEAK Matrix research?
- Participation incentives for buyers include a summary of key findings from the PEAK Matrix assessment
- Participation incentives for providers/vendors include adequate representation and recognition of their capabilities/success in the market place, and a copy of their own “profile” that is published by Everest Group as part of the “compendium of PEAK Matrix providers” profiles.

What is the process for a service provider / technology vendor to leverage their PEAK Matrix positioning and/or “Star Performer” status?
- Providers/vendors can use their PEAK Matrix positioning or “Star Performer” rating in multiple ways including:
  - Issue a press release declaring their positioning. See citation policies
  - Customized PEAK Matrix profile for circulation (with clients, prospects, etc.)
  - Quotes from Everest Group analysts could be disseminated to the media
  - Leverage PEAK Matrix branding across communications (e-mail signatures, marketing brochures, credential packs, client presentations, etc.)
- The provider must obtain the requisite licensing and distribution rights for the above activities through an agreement with the designated POC at Everest Group.

Does the PEAK Matrix evaluation criteria change over a period of time?
PEAK Matrix assessments are designed to serve present and future needs of the enterprises. Given the dynamic nature of the global services market and rampant disruption, the assessment criteria are realigned as and when needed to reflect the current market reality as well as serve the future expectations of enterprises.
About Everest Group

Everest Group is a consulting and research firm focused on strategic IT, business services, and sourcing. We are trusted advisors to senior executives of leading enterprises, providers, and investors. Our firm helps clients improve operational and financial performance through a hands-on process that supports them in making well-informed decisions that deliver high-impact results and achieve sustained value.
