

# Modernize Finserv Workspaces with VDI Solutions

Modernize Finserv workspaces with virtual desktop infrastructure services using Wipro's Virtuadesk, a hybrid multi cloud managed workspace services solution catering to the new normal.

Boost employee engagement and agility with consistent end-to-end user experiences while optimizing costs.

If you are like most CIOs, you are no stranger to IT budget reductions and cost-cutting measures. While the pandemic taught us that reducing costs is at times essential for survival, this approach can get in the way of your banking enterprise's digital transformation and long-term competitive advantage.

CIOs leading the pack need to take a proactive approach to cost management, redirecting budget strategically to deliver higher value to business no matter what comes their way.

## Recalibrate your remote working strategic plan

Finserv CIOs adopted stop-gap solutions to maintain operations and customer service in the initial phase of the pandemic. Now, in recovery, they are taking a step back and strategically looking at their digital workplace transformation plans.

## Wipro's virtuadesk™ for remote and virtual work

Financial services enterprises needing a desktop virtualization solution can complete a rapid employee access setup by managing compliant desktop infrastructure through centralized application delivery, real time monitoring, and 2x better user experience with Wipro's virtuadesk.

Whether you are exploring virtual desktop infrastructure services for the first time or are an existing digital workplace services customer, it is important to consider scale and achieve IT business alignment to prioritize critical functions, roles, and regions for achieving desired business outcomes.

## Up and moving forward

Regardless of your financial corporation's readiness level, Wipro can help you migrate to a modern, secure, scalable, digital workplace.

**If you are exploring VDI for the first time, you should consider:**

Assessment phase – user profiling & application analysis

Network and connectivity aspects

Application & data vs user proximity analysis

Cloud allocation & hosting strategies

Security & end point strategy

User migration & change management aspects

User experience & performance management

ROI & TCO analysis

User adoption and change management strategy

Persona based asset catalogues and service management

If you already have an existing VDI setup:

**Goal 1:** To expand a moderate VDI setup

- Assessment of requirements and the existing VDI control plane and subscriptions
- Consulting and expansion analysis
- Identify maturity level and recommendation

**Goal 2:** To modernize and transform your virtual workspace

- Transformational roadmap through a joint workshop
- Identify new and modern workspace use cases
- Capacity planning and forecasting
- Hybrid and multicloud strategy
- High availability and disaster recovery strategy

With enterprise-grade security for protection against data loss, Wipro's virtuadesk is a sustainable, agile, hybrid, modular long-term remote-working solution.

## What analysts are saying

In a **2021 report**, Gartner, Inc., a leading research and advisory company, named Wipro for its 'Ability to Execute and Completeness of Vision'. Gartner has recognized Wipro as a Leader in their 2021 Magic Quadrant for Managed Workplace Services.
