

Mac Choice Proof of Concept

Empower Employees With Access to Mac

According to a recent survey, 60% of PC users responded that their productivity would improve with a Mac®.

With Wipro's expertise, integrating and deploying Apple® products into your existing IT environment is easy.

Our proof-of-concept service provides the support and tools necessary to prepare your IT environment for a quick, seamless transition to Apple devices.

SUPPORT CHOICE AND SCALE FAST

Timing is critical, so we provide detailed feedback on-site and remotely. The process includes:

- Pre-visit calls to prepare for the on-site POC setup
- Hands-on discovery sessions with your technology teams to provide best practices for managing Mac for up to four days
- In-depth closing session covering the key findings and actionable recommendations
- Modern best practice for security, application deployment and data migration

BENEFITS

- Mentor your IT team — hands-on access to leading tools and infrastructure
- Functioning proof-of-concept environment for 30 days
- Four hours of remote consulting
- Plan roadmap for Mac

AREAS COVERED

- Zero-touch deployment
- Apple Business Manager setup support
- Configure Security Policies
- Configure WiFi policy
- Migration to macOS tools
- Push of up to three applications
- Self-service of applications
- End user video support and training access

Delivering Mac **choice** to your employees **today**

Designing and deploying a corporate-provisioned employee choice program that incorporates Windows and Apple products within your existing IT infrastructure can be daunting. Wipro makes it easier.

Our evaluation and proof-of-concept services provide the support and tools necessary to prepare your IT environment for a quick, seamless transition to Mac.

Wipro's deep expertise in end-user services—from device sourcing to deployment to security to support—allows enterprises to order Apple products and have them distributed directly to employees with zero-touch deployment. The device policies and applications are configured over the air.

From the initial power-on, the Mac is set up automatically without any interaction with IT and can be easily maintained and kept compliant with policies while saving time, reducing costs, enhancing governance and delighting employees.
