

# Business Overview

March 4, 2015

**Jatin Dalal**  
CFO IT Business

# Safe Harbor

---

This presentation may contain certain “forward looking” statements, which involve a number of risks, uncertainties and other factors that could cause actual results to differ materially from those that may be projected by these forward looking statements. These uncertainties have been detailed in the reports filed by Wipro with the Securities and Exchange Commission and these filings are available at [www.sec.gov](http://www.sec.gov). This presentation also contains references to findings of various reports available in the public domain. Wipro makes no representation as to their accuracy or that the company subscribes to those findings.

# Overview

---

1. We had a strong quarter in Q3 with 3.7% seq growth on constant currency
2. Our guidance for Q4 is \$1,814 million to \$1,850 million on constant currency (1%-3%) – there has been significant movement in the cross currency over the past 3 months and expect an impact between 200-250 basis points due to cross currency
3. The demand environment continues to hold steady. Customers are increasing more optimistic about prospects in US
4. Oil & Gas industry is seeing the impact of the plunge in crude prices – we are seeing significant impact in capex and discretionary spends which will play out in Q4 and Q1
5. We continue to see deal momentum – we are consistently closing large deals quarter after quarter
6. Overall, we are making progress in the right direction and creating a strong Wipro for the future

Thank You
