Wipro Collaborates with Intel to Drive Business Continuity

Integration to enable remote IT support and provide enhanced security solutions

East Brunswick, New Jersey, USA and Bangalore, India – August 06, 2020: Wipro Limited (NYSE: WIT, BSE: 507685, NSE: WIPRO), a leading global information technology, consulting and business process services company, today announced that it will join forces with [Intel](#) to enable Wipro's LIVE Workspace™, Wipro's digital workspace solution with the Intel vPro® platform. This joint collaboration will help customers drive business continuity by enabling remote IT support and solutions, as they seek to keep employees productive amid social distancing boundaries and other remote-work limitations that have become the new normal.

Wipro integrated the Intel vPro® platform into LIVE Workspace™, a suite of digital workplace services to provide remote manageability of devices. This extends to users at home or in the office and provides enhanced protection and security against firmware-level attacks. The combined solution provides practical business continuity services to enable enterprises to rapidly design, deploy, and manage a true remote work experience. Intel recently introduced its 10th Gen Intel® Core™ vPro® processors that are built for business to power next generation business computing needs. Wipro will leverage the Intel vPro® platform which features Intel® Active Management Technology (Intel® AMT) and Intel® Endpoint Management Assistant (Intel® EMA). This will enable remote work and drive seamless productivity and collaboration while giving employees the flexibility to work from anywhere in a safe, more secure and reliable manner.

Satish Yadavalli, Vice President, Cloud and Infrastructure Services, Wipro Limited said, “The collaboration is a testament of our strength and our joint resolve to enhance the value we can create for our customers. We intend to bring together our strong complementary capabilities on remote working tools & platforms, desktop & application integration and managed services, to help mitigate the impact of the pandemic. Wipro is a leader in workplace management services and Intel in client computing solutions. Together, we can equip enterprises to enhance employee experiences and connectivity to help achieve strategic business outcomes.”

“Our partnership with Wipro has been strong and we applaud Wipro’s laser focus on driving customer value. The Intel® vPro® platform is built for business, and Wipro’s digital workspace solution is perfect for customers adapting to the new normal of remote workplace management. Together we are delivering on a vision for seamless productivity and collaboration, so people can contribute at the highest level regardless of where they are.” said **Stephanie Hallford, Intel Vice President of the Client Computing Group and General Manager of Business Client Platforms.**

Forward-Looking Statements

The forward-looking statements contained herein represent Wipro's beliefs regarding future events, many of which are by their nature, inherently uncertain and outside Wipro's control. Such statements include, but are not limited to, statements regarding Wipro's growth prospects, its future financial operating results, and its plans, expectations and intentions. Wipro cautions readers that the forward-looking statements contained herein are subject to risks and uncertainties that could cause actual results to differ materially from the results anticipated by such statements. Such risks and uncertainties include, but are not limited to, risks and uncertainties regarding fluctuations in our earnings, revenue and profits, our ability to generate and manage growth, complete proposed corporate actions, intense competition in IT services, our ability to maintain our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which we make strategic investments, withdrawal of fiscal governmental incentives, political instability, war, legal restrictions on raising capital or acquiring companies outside India, unauthorized use of our intellectual property and general economic conditions affecting our business and industry. The conditions caused by the COVID-19 pandemic could decrease technology spending, adversely affect demand for our products, affect the rate of customer spending and could adversely affect our customers' ability or willingness to purchase our offerings, delay prospective customers' purchasing decisions, adversely impact our ability to provide on-site consulting services and our inability to deliver our customers or delay the provisioning of our offerings, all of which could adversely affect our future sales, operating results and overall financial performance. Our operations may also be negatively affected by a range of external factors related to the COVID-19 pandemic that are not within our control. Additional risks that could affect our future operating results are more fully described in our filings with the United States Securities and Exchange Commission, including, but not limited to, Annual Reports on Form 20-F. These filings are available at www.sec.gov. We may, from time to time, make additional written and oral forward-looking statements, including statements contained in the company's filings with the Securities and Exchange Commission and our reports to shareholders. We do not undertake to update any forward-looking statement that may be made from time to time by us or on our behalf.
