## **Wipro Has Earned the Kubernetes on Microsoft Azure Advanced Specialization**

**New York, USA and Bangalore, India – August 03, 2021:** Wipro Limited (NYSE: WIT, BSE: 507685, NSE: WIPRO), a leading global information technology, consulting and business process services company, today announced that it has earned the Kubernetes on Microsoft Azure advanced specialization, a validation of a solution partner's deep knowledge, extensive experience and proven expertise in deploying and managing production workloads in the cloud using containers and managing hosted Kubernetes environments in Microsoft Azure.

Only partners that meet stringent criteria around customer success and staff skilling, as well as pass a third-party audit of their container-based workload deployment and management practices are able to earn the Kubernetes on Azure advanced specialization.

With over 75% of global organizations expected to run containerized applications in production by 2022, many are looking for a partner with advanced skills to migrate their existing containerized workloads to the cloud, or assist them in developing cloud-native applications using container technologies, DevOps patterns, and a microservices approach.

“Today most enterprise customers are planning to run their applications on containers to address their business scalability requirements. Microsoft’s Azure Kubernetes Service is a leading offering in that category and this advanced specialization recognizes our capabilities in the area. Our expertise in delivering AKS along with devNXT, our modernization platform, has helped multiple global customers adopt their Cloud modernization journey at a faster pace,” said **Arun Melkote, Vice President & Practice Head, App Engineering and Modernization, iDEAS, Wipro Limited.**

**Rodney Clark, Corporate Vice President, Global Partner Solutions, Channel Sales and Channel Chief, Microsoft** added, “The Kubernetes on Microsoft Azure advanced specialization highlights the partners who can be viewed as most capable when it comes to deploying and managing containerized applications in Azure. Wipro clearly demonstrated that they have both the skills and the experience to deliver best-in-class cloud-native capabilities to customers with Azure.”

Wipro’s devNXT, listed on the [Azure Marketplace](#), is an AI driven platform for developing smart applications and accelerating application modernization and cloud enablement. It helps in democratization of engineering and driving speed and engineering productivity.

## **About Wipro Limited**

Wipro Limited (NYSE: WIT, BSE: 507685, NSE: WIPRO) is a leading global information technology, consulting and business process services company. We harness the power of cognitive computing, hyper-automation, robotics, cloud, analytics and emerging technologies to help our clients adapt to the digital world and make them successful. A company recognized globally for its comprehensive portfolio of services, strong commitment to sustainability and good corporate citizenship, we have over 200,000 dedicated employees serving clients across six continents. Together, we discover ideas and connect the dots to build a better and a bold new future.

## **Forward-Looking Statements**

The forward-looking statements contained herein represent Wipro's beliefs regarding future events, many of which are by their nature, inherently uncertain and outside Wipro's control. Such statements include, but are not limited to, statements regarding Wipro's growth prospects, its future financial operating results, and its plans, expectations and intentions. Wipro cautions readers that the forward-looking statements contained herein are subject to risks and uncertainties that could cause actual results to differ materially from the results anticipated by such statements. Such risks and uncertainties include, but are not limited to, risks and uncertainties regarding fluctuations in our earnings, revenue and profits, our ability to generate and manage growth, complete proposed corporate actions, intense competition in IT services, our ability to maintain our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which we make strategic investments, withdrawal of fiscal governmental incentives, political instability, war, legal restrictions on raising capital or acquiring companies outside India, unauthorized use of our intellectual property and general economic conditions affecting our business and industry. The conditions caused by the COVID-19 pandemic could decrease technology spending, adversely affect demand for our products, affect the rate of customer spending and could adversely affect our customers' ability or willingness to purchase our offerings, delay prospective customers' purchasing decisions, adversely impact our ability to provide on-site consulting services and our inability to deliver our customers or delay the provisioning of our offerings, all of which could adversely affect our future sales, operating results and overall financial performance. Our operations may also be negatively affected by a range of external factors related to the COVID-19 pandemic that are not within our control. Additional risks that could affect our future operating results are more fully described in our filings with the United States Securities and Exchange Commission, including, but not limited to, Annual Reports on Form 20-F. These filings are available at [www.sec.gov](http://www.sec.gov). We may, from time to time, make additional written and oral forward-looking statements, including statements contained in the company's filings with the Securities and Exchange Commission and our reports to shareholders. We do not undertake to update any forward-looking statement that may be made from time to time by us or on our behalf.
