## **Wipro selects Google Cloud to advance its Digital Transformation Strategy**

*Transform mission critical SAP applications with Google Cloud and will also roll out G Suite into its workplace productivity tool set*

**Sunnyvale, CA, and Bangalore, India - July 28, 2020** -- Wipro Limited (NYSE: WIT, BSE: 507685, NSE: WIPRO), a leading global information technology, consulting and business process services company, today announced that it has selected Google Cloud as the cloud provider for its enterprise-wide SAP footprint. The engagement will bring SAP applications and workloads to the cloud to support Wipro's 180,000 employees. This latest collaboration solidifies the strategic relationship between the companies as they roll out two major initiatives across Wipro's global organization.

### **Transforming to an Intelligent Enterprise with SAP S/4HANA and Google Cloud**

Wipro will modernize and transform its core ERP system to SAP's flagship S/4HANA and migrate the SAP workloads onto Google Cloud Platform (GCP). Wipro will leverage the advanced intelligent ERP from SAP along with the flexibility and scalability of the GCP for hosting SAP Workloads.

"As a provider of digital transformation services to some of the world's most impactful businesses, it is critical that our own core systems and technologies are running on intelligent and modern platforms that encompass the needs of the future," **said Bhanumurthy B.M, President and Chief Operating Officer, Wipro Limited.** "This transformation program will help us to run our most business-critical workloads and applications with speed and agility, and support our customers more effectively."

"Wipro is embracing digital transformation at speed and scale. By modernizing their core IT and communication systems with the cloud, they have a powerful and scalable foundation to accelerate their strategic enterprise priorities and build for the future." **said Thomas Kurian, CEO, Google Cloud.**

### **Transforming the employee experience with G Suite**

Wipro will roll out G Suite for some of their employees as a workplace productivity platform. Factors that led the company to integrate the intuitive, cloud-native solution included G Suite's strong interoperability and security controls, and features that enable real-time collaboration even in remote-work environments.

### **Extending a long-term relationship**

Wipro and Google Cloud also have a strong track record of success working together to help enterprises achieve greater operational efficiency, innovation, and risk mitigation along their cloud journey. Wipro's industry-focused solutions, with Google Cloud technologies embedded at their core, enable enterprises to future-proof their IT investments.

Wipro's dedicated Google Cloud practice also powers business and technology transformation for joint enterprise customers. This includes differentiated services like application modernization, data analytics, artificial intelligence, SAP workload migration, and industrialized cloud migrations at scale. Wipro has also integrated [Anthos](#), Google's open platform for managing applications in a multi-cloud world, into its services offerings to enable hybrid cloud deployments for customers.

### **About Wipro Limited**

Wipro Limited (NYSE: WIT, BSE: 507685, NSE: WIPRO) is a leading global information technology, consulting and business process services company. We harness the power of cognitive computing, hyper-automation, robotics, cloud, analytics and emerging technologies to help our clients adapt to the digital world and make them successful. A company recognized globally for its comprehensive portfolio of services, strong commitment to sustainability and good corporate citizenship, we have over 180,000 dedicated employees serving clients across six continents. Together, we discover ideas and connect the dots to build a better and a bold new future.

### **About Google Cloud**

Google Cloud provides organizations with leading infrastructure, platform capabilities and industry solutions. We deliver enterprise-grade cloud solutions that leverage Google's cutting-edge technology to help companies operate more efficiently and adapt to changing needs, giving customers a foundation for the future. Customers in more than 150 countries turn to Google Cloud as their trusted partner to solve their most critical business problems.

### **Forward-Looking Statements**

The forward-looking statements contained herein represent Wipro's beliefs regarding future events, many of which are by their nature, inherently uncertain and outside Wipro's control. Such statements include, but are not limited to, statements regarding Wipro's growth prospects, its future financial operating results, and its plans, expectations and intentions. Wipro cautions readers that the forward-looking statements contained herein are subject to risks and uncertainties that could cause actual results to differ materially from the results anticipated by such statements. Such risks and uncertainties include, but are not limited to, risks and uncertainties regarding fluctuations in our earnings, revenue and profits, our ability to generate and manage growth, complete proposed corporate actions, intense competition in IT services, our ability to maintain our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which we make strategic investments, withdrawal of fiscal governmental incentives, political instability, war, legal restrictions on raising capital

or acquiring companies outside India, unauthorized use of our intellectual property and general economic conditions affecting our business and industry. The conditions caused by the COVID-19 pandemic could decrease technology spending, adversely affect demand for our products, affect the rate of customer spending and could adversely affect our customers' ability or willingness to purchase our offerings, delay prospective customers' purchasing decisions, adversely impact our ability to provide on-site consulting services and our inability to deliver our customers or delay the provisioning of our offerings, all of which could adversely affect our future sales, operating results and overall financial performance. Our operations may also be negatively affected by a range of external factors related to the COVID-19 pandemic that are not within our control. Additional risks that could affect our future operating results are more fully described in our filings with the United States Securities and Exchange Commission, including, but not limited to, Annual Reports on Form 20-F. These filings are available at [www.sec.gov](http://www.sec.gov). We may, from time to time, make additional written and oral forward-looking statements, including statements contained in the company's filings with the Securities and Exchange Commission and our reports to shareholders. We do not undertake to update any forward-looking statement that may be made from time to time by us or on our behalf.
