Statement

In March 2009, Wipro Ltd entered into a seven-year agreement with the Employees' State Insurance Corporation (ESIC) as a Systems Integrator for Project Panchdeep to set up a healthcare administration program under the Build, Own, Operate and Transfer Model. This project has helped ESIC digitize and offer real-time healthcare services to over 7.8 crore citizens across 2,200 locations.

Wipro has completed its obligations under the contract. However, ESIC has withheld certain amounts due to Wipro in an ad-hoc and arbitrary manner, which has resulted in a significant delay in collections for Wipro. Wipro has disputed this non-payment and is engaged with ESIC to recover the amounts due. If we are not able to resolve this amicably in a reasonable time, Wipro will take all necessary legal steps available to it. Wipro follows a consistent accounting policy; and over the relevant period these dues are appropriately recorded in financial records.

The Agreement expired on June 08, 2016 post which Wipro had no obligation to provide any services to ESIC. In spite of ESIC's failure to make timely payments, Wipro at the request of ESIC and given the critical nature of the services for the citizens, agreed to provide support services for an additional period of three months. As contractually agreed, Wipro will handover this project close of business hours on September 8, 2016.
