Our Strategy
5 market discontinuities that could transform the industry

1. **Consumerization**
   - Enriching consumer experience - digital content leading to hyper personalization
   - Consumer insights & feedback impacting product & services design and customer engagement channels
   - Mobile is becoming the key channel for commerce
   - Multichannel capabilities & front office systems to drive differentiation

2. **Consumption Models**
   - Variable consumption models - Need for flexibility, speed, responsive & capex-light models driving innovations in pricing
     - E.g. outcome based pricing
   - ‘Business process as a service’ (Utility Models) for Back office
     - E.g. cheque processing
   - Middle office integration into back office to increase speed to market
     - E.g. process control system unified in ERP

3. **Regulation**
   - FACTA, Dodd Frank Act, Obama-care will ↑technology spending

4. **Complexity**
   - New visa regulations could change the model of global delivery
     - Managing complexity of legacy businesses in core areas
     - E.g. – Closed Book Processing
   - Cyber-security - Protection of critical business & customer data is a key imperative for enterprises in face of sophisticated attacks

5. **Changing Stakeholder Influence**
   - IT decision making beyond CIO
     - Increasingly technology budgets will move outside CIO office
   - CMO, CFO & business heads to play key roles in IT decisions

Note: ERP is Enterprise Resource Planning, FACTA is Fair and Accurate Credit Transactions Act, CMO is Chief Marketing Officer
