Wipro continued its momentum in winning Large Deals globally as listed below:

Wipro has been awarded a contract by Saudi Aramco, the national oil company of Saudi Arabia, for the design and implementation of Communications & Security systems for its Fadhili Gas Plant project.

Wipro has won a multi-year engagement with a Top 5 news and information provider as its digital transformation partner. This program will drive innovation for the company, enable revenue growth through digital platforms, augment its risk profile through enhanced cyber security and improve service availability to the company’s end customers.

A global wind energy equipment manufacturing company has selected Wipro as its strategic IT partner to transform its workplace as a part of its digital journey. Leveraging its strong understanding of the manufacturing domain, Wipro’s solution aims to enable a superior and seamless user experience and offers increased mobility for employees of the customer organization, while ensuring data security and optimized costs.

Wipro has won a Customer Service and Billing Transformation engagement with a large water utility company based in United Kingdom. This deployment, which leverages SaFeWater, Wipro’s certified water industry billing solution, will enable the utility company transform customer experiences and become more competitive, particularly, given the UK Water Regulator, ofwat’s Open Water market-deregulation initiative.

A leading United States-based natural gas distribution utility has selected Wipro to manage its IT infrastructure for a period of five years. Wipro will leverage its next-generation managed services framework, ServiceNXT for the engagement.

A US-based Fortune 20 Healthcare Payer organization has selected Wipro as its key implementation partner for Provider Contracting and Data Management.

Digital highlights

Our Digital capability combining strategy, design, engineering and analytics is seeing traction in the marketplace. Designit's unique capabilities combined with Wipro's technological prowess is driving synergistic deal wins.

Our Digital unit was brought in by a global tier 1 bank to support the rebuild of their wealth management experience. We are supporting their efforts across design and engineering, significantly shortening the time to market and increasing the speed of engineering delivery.

Applying our deep Internet of Things (IoT) capability, we are helping a leading provider of welding solutions with their vision for a data-driven decision-making environment where fabricators and manufacturers can move the true levers of productivity and quality, as well as make better use of working capital.

Wipro has been named a strategic supplier to a global tier 1 bank, where we continue to work to establish the digital banking platform globally, providing digital expertise and support to help deliver the new core banking platform.

Wipro has won a CRM transformation program with Telenor, a leading global operator. This program will enable the Asian business unit of Telenor to achieve business transformation and simplification of complete customer management through simplified business processes. The solution will be designed and built using Open Source technologies and will be future cloud-ready. It will also enable Telenor to provide a mobile interface to retailers for simplified business transactions.

A fragrance provider has selected our combined IoT and Cloud services to support their connected vision for remote monitoring and control of dispensing assets, which will improve visibility into product utilization.

For a leading Asia-based airline, Designit and Wipro started to work on the airline's future digital experience by creating a benchmark and best-practice study as well as a future vision for C-level management.

For a large Scandinavian energy-provider, Designit and Wipro have been assigned to rethink the company's digital strategy and transform the digital customer and brand experience, responding to a market in radical change.

A European bank has retained us to support their digital and customer innovation strategy as they look to reimagine the banking experience for their customers.

Cloud highlights

Wipro was chosen as a partner to manage, enhance and transform the sales operations processes developed across multiple cloud platforms for a global provider of products, technologies & software.

Wipro will partner with an Australia-based company that provides outdoor advertising solutions to transform their financial processes on cloud. The solution will involve implementing Cloud ERP solutions including Financials, Purchasing, Planning and Budgeting processes.

Wipro has been awarded a project to streamline the Source-to-Pay processes, improve supply chain relationship, and enhance the visibility of procurement spend for an Australian corporation providing asset management and infrastructure development services. The solution is being delivered on a leading cloud procurement platform.

Delivery Excellence

Wipro's Healthcare Enrollment Platform 'Member 360', was used by 16 Medicare Advantage plans for 2016 open enrollment. 125,000 members were enrolled in the plan with 98% first pass enrollment, helping Medicare Advantage plans meet federal mandated timeline for enrollment. Wipro's Healthcare customers have benefited during this open enrollment, through Wipro's investments in this 'Member 360' platform, which enabled higher automation, simplified work-flows and ensured scalability.

For a leading global medical devices OEM, Wipro's product cross functional specialists worked to achieve a 6% reduction in the product recall rate helping the customer to save about \$16 million per annum.

We have been recognized by our clients for the value we have delivered:

Fruit of the Loom's CEO and CIO have recognized and presented the Slam Dunk Champion Award to the Wipro Delivery Team for excellence in delivery for the year 2015

Patrik Ekström, CIO, Outokumpu said, "We have been working with Wipro for almost 2 years now. The relationship is very open, natural and we can easily engage in dialogue. We were surprised to see that Wipro, whom we saw as an SAP maintenance partner, was able to bring mathematical professor level skills and were able to convince our business team that Wipro is the right partner. Wipro is a company which focusses on asset building, as I understand, like for example, building something that you might not be able to find in the market. One example of what we have achieved together is how the manufacturing execution systems have been connected to the Industrial Internet kind of Automation Solutions. Those are clear examples of innovation Wipro is bringing to us. We will recommend Wipro to peers for its willingness to serve customers."

Douglas Yoder, IT Manager, Echostar Corporation said, "Wipro has delivered the Dish Paperless Agreement mobile app (DPA) which has significantly helped Dish save time, money and effort on creating and maintaining the hard copies of the agreements. Dish is saving 10% on its operational cost on every agreement. Wipro delivery team never ceases to amaze me with their passion and commitment towards the customer success. Wipro has broad and deep reserves of intellectual resources across numerous enterprises whose experience the members of my team can draw upon. My experience with Wipro in the past 5 years has been rewarding and looking forward for many more success stories."

Awards and accolades

Wipro was recognized as a 2016 World's Most Ethical Company® for the fifth successive year by the Ethisphere Institute, the global leader in defining and advancing the standards of ethical business practices.

About Non-GAAP financial measures

This press release contains non-GAAP financial measures within the meaning of Regulation G and Item 10(e) of Regulation S-K. Such non-GAAP financial measures are measures of our historical or future performance, financial position or cash flows that are adjusted to exclude or include amounts that are excluded or included, as the case may be, from the most directly comparable financial measure calculated and presented in accordance with IFRS.

The table on page 8 provides IT Services Revenue on a constant currency basis, which is a non-GAAP measure that is calculated by translating IT Services Revenue from the current reporting period into U.S. dollars based on the currency conversion rate in effect for the prior reporting period. We refer to growth rates in constant currency so that business results may be viewed without the impact of fluctuations in foreign currency exchange rates, thereby facilitating period-to-period comparisons of our business performance.

This non-GAAP financial measure is not based on any comprehensive set of accounting rules or principles and should not be considered a substitute for, or superior to, the most directly comparable financial measure calculated in accordance with IFRS, and may be different from non-GAAP measures used by other companies. In addition to this non-GAAP measure, the financial statements prepared in accordance with IFRS and the reconciliation of these non-GAAP financial measures with the most directly comparable IFRS financial measure should be carefully evaluated.

Results for the quarter and year ended March 31, 2016, prepared under IFRS, along with individual business segment reports, are available in the Investors section of our website www.wipro.com.
