Outlook for the Quarter ending June 30, 2018

We expect Revenue from our IT Services business to be in the range of \$2,015 million to \$2,065 million*. We had announced the divestiture of our hosted data center services business to Ensono for a consideration of \$405 million. We expect the transaction to complete during the quarter ending June 30, 2018. For the purpose of the Outlook, we have not considered the impact of the divestment on the Revenue for the quarter ending June 30, 2018. We will revise the Outlook for the quarter based on the actual date of completion of the divestment.

* Outlook is based on the following exchange rates: GBP/USD at 1.39, Euro/USD at 1.24, AUD/USD at 0.78, USD/INR at 65.12 and USD/CAD at 1.27.

Capital Allocation-

The Board of Directors at its meeting held on January 19, 2018, had declared an interim dividend of ₹1 per equity share for the financial year 2017–18. The Board recommends adoption of the interim dividend as the final dividend for the financial year 2017–18. Thus, the total dividend for the financial year 2017–18 remains ₹1 per equity share. We also completed a buyback of ₹110,000 million in December 2017.

IT Services

We signed a definitive agreement to divest Wipro's hosted data center services business to Ensono, a leading hybrid IT services provider, for USD 405 million. Wipro will unlock value by transitioning eight data centers and over 900 employees of its hosted data center services business to Ensono. As part of the agreement, Wipro will make a strategic investment of USD 55 million in Ensono's combined entity.

Wipro continued its momentum in winning large deals globally as described below:

A leading North American healthcare technology company has chosen Wipro as a strategic partner to help enhance its services and solutions, consolidate operations and grow the scale and scope of their offerings. Leveraging the Wipro HOLMES™ platform, Wipro will implement digital solutions that harness the power of cognitive computing, machine learning and hyper-automation. This engagement will help the client address the emerging needs of the industry as they work towards enabling a more value-based healthcare system.

Wipro has won a multi-year infrastructure transformation deal in the Securities & Capital Markets domain from a global financial services firm. The deal encompasses hybrid cloud management services, workplace services, cybersecurity operations, and cloud-enabled transformation, and will standardize and modernize IT operations across the client's lines of business. In addition to leveraging Wipro's expertise in infrastructure operations transformation, the engagement will be powered by Wipro HOLMES™ for intelligent automation, and analytics-driven insights.

Wipro has won a multi-year contract from a leading German automotive company to transform and operate a large advanced analytics platform. The program will foster business agility and scalability for the client through transformation of enterprise operations and data-driven business insights.

A leading network equipment provider has selected Wipro to enhance its Internet Protocol products. Wipro will develop next-generation platforms for the client as well as support their existing product portfolio.

Digital highlights

We continue to see increasing traction in digital oriented deals as illustrated below:

A national U.S. retailer has hired Wipro Digital to support the ongoing development of its new omnichannel B2B platform and website. Wipro Digital's Buildit engineering team will partner with the retailer to introduce new approaches and agile methodologies to enhance the user experience.

A North American healthcare company has chosen Wipro as its digital transformation partner to digitize and improve its partner experience to take advantage of the evolving business models in the healthcare industry. The project will leverage the offerings of Wipro Digital and its strategic design firm Designit - in product design, product branding and technology implementation.

Designit and Wipro Digital undertook a strategic design engagement to reimagine the merchant onboarding process for a large credit card processing firm. The extensive desk and field research resulted in the development of a reimagined onboarding experience. The new platform will help the client differentiate and remain competitive in a highly disrupted industry.

Wipro continues to win deals in the cloud applications space by leveraging Appirio Cloud Services:

- A large US-based healthcare company has selected Wipro to support the consolidation and standardization of its CRM processes;
- Wipro was selected by a social purpose-driven software company to standardize the user experience of their organization and its sub brands on a cloud platform;
- A global financial services firm has selected Wipro to upgrade its existing CRM solution; and
- An international non-profit organization has chosen Wipro to transform its financial accounting processes.

About Non-GAAP financial measures

This press release contains non-GAAP financial measures within the meaning of Regulation G and Item 10(e) of Regulation S-K. Such non-GAAP financial measures are measures of our historical or future performance, financial position or cash flows that are adjusted to exclude or include amounts that are excluded or included, as the case may be, from the most directly comparable financial measure calculated and presented in accordance with IFRS.

The table on page 8 provides IT Services Revenue on a constant currency basis, which is a non-GAAP financial measure that is calculated by translating IT Services Revenue from the current reporting period into U.S. dollars based on the currency conversion rate in effect for the prior reporting period. We refer to growth rates in constant currency so that business results may be viewed without the impact of fluctuations in foreign currency exchange rates, thereby facilitating period-to-period comparisons of our business performance.

This non-GAAP financial measure is not based on any comprehensive set of accounting rules or principles and should not be considered a substitute for, or superior to, the most directly comparable financial measure

calculated in accordance with IFRS, and may be different from non-GAAP measures used by other companies. In addition to this non-GAAP measure, the financial statements prepared in accordance with IFRS and the reconciliation of these non-GAAP financial measures with the most directly comparable IFRS financial measure should be carefully evaluated.
