

IQNxt: Make your data work

Wipro's integrated data quality management and transformation solution (IQNxt) provides an integrated platform for managing and transforming the quality of enterprise data assets. The solution comprehensively brings together aspects of governance, continuous quality monitoring

and business enablement. The primary opportunity areas for IQNxt include data migration and on-going data quality management.

Solution capabilities

-  Addresses data quality for migration and on-going monitoring
-  Library of pre-built DQ rules by industry specific use cases (FATCA, UDI etc.)
-  Out of the box integration and transformation templates for select platforms
-  Integrated governance controls – workflows, audit and versioning

An Integrated Platform to address all facets of data quality

IQNxt – Building blocks

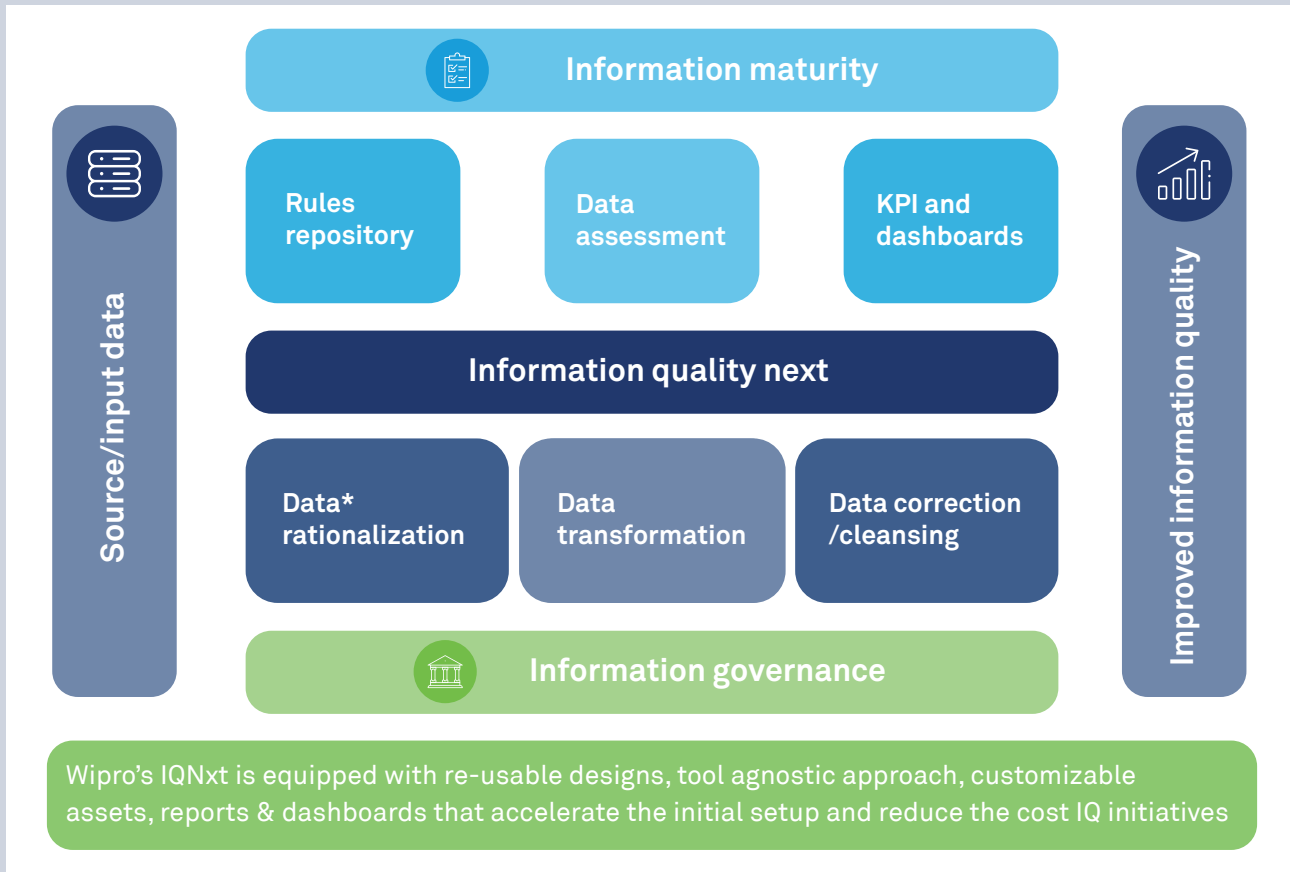

Figure 1. IQNxt – Building blocks

Key differentiators

- Patented framework for data migrations – assessment, enrichment to certification
- Source independent, reusable, industry use cases specific rules library
