

Wipro's B2B Integration practice

Enabling a digitally
connected enterprise

Organizations across industries are embarking on technology transformation programs to effectively engage with the digital economy. Wipro offers consulting, implementation, maintenance and support services across B2B integration (B2Bi) and Managed File Transfer (MFT) tools available in the market and leverages its vast experience in agile methodology to execute large scale B2Bi projects.

Service offerings

- **B2Bi consulting services:** B2Bi strategy and roadmap, assessment / product evaluation and consolidation
- **B2Bi implementation services:** B2Bi / MFT implementation, consolidation, upgrade and migration, B2Bi re-architecting for global ERP rollouts
- **B2Bi managed / hosted services:** B2Bi / MFT managed services on Cloud, B2Bi application migration from on premises to Cloud, and end-to-end platform support

A proactive,
holistic and
iterative approach
to B2B integration

Wipro's B2B Integration practice

Wipro's B2Bi practice assists enterprises in implementing, managing and enhancing their B2B integration and file transfer infrastructure. Wipro has delivered several transformational programs for global customers by leveraging its deep industry knowledge, proven global delivery model, and a dedicated B2Bi Center of Excellence (CoE).

Platform & solutions

Wipro's Digital Integration as-a-Service is a smart, hybrid and elastic platform for integration of everything, from businesses and applications to Cloud and Things. The platform is built on a Cloud-first, API-first and microservices based

Creating an integrated enterprise that delivers consistent, omni-channel customer experience

architecture to ensure digital readiness and can be operated in as-a-Service or hybrid models. The platform has several solutions to help enterprises implement secure and reliable integration with their business partners including:

Managed File Transfer as-a-Service (MFTaaS)

A unified Cloud-hosted solution that enables seamless business integration across heterogeneous partner systems and has any-to-any data transformation and managed file transfer capabilities offered in pay-as-you-go pricing model

Market Exchange Integration Solution (MEIS)

The solution encompasses all the market data exchange and integration needs for UK Open Water initiative. It enables a secure and reliable communication platform to govern all the B2B transactions between the market operator and the retailers

Business Partner On-boarding Solution (BPOS)

A self-service portal which can be integrated with any B2B integration product and minimizes time and effort required to onboard a business partner

Map Testing framework

The framework automates the trading partner testing process using an easy to use portal application with tracking capabilities
