

The background of the entire page is a photograph of a diverse group of five people (three women and two men) sitting around a wooden table in an outdoor setting, possibly a cafe or office terrace. They are all looking at a laptop screen, with some pointing at it, suggesting a collaborative work environment. The scene is brightly lit with natural light, and there are plants and string lights visible in the background.

Oracle Generation 2 Cloud Infrastructure

Kickstart your journey
to the Cloud

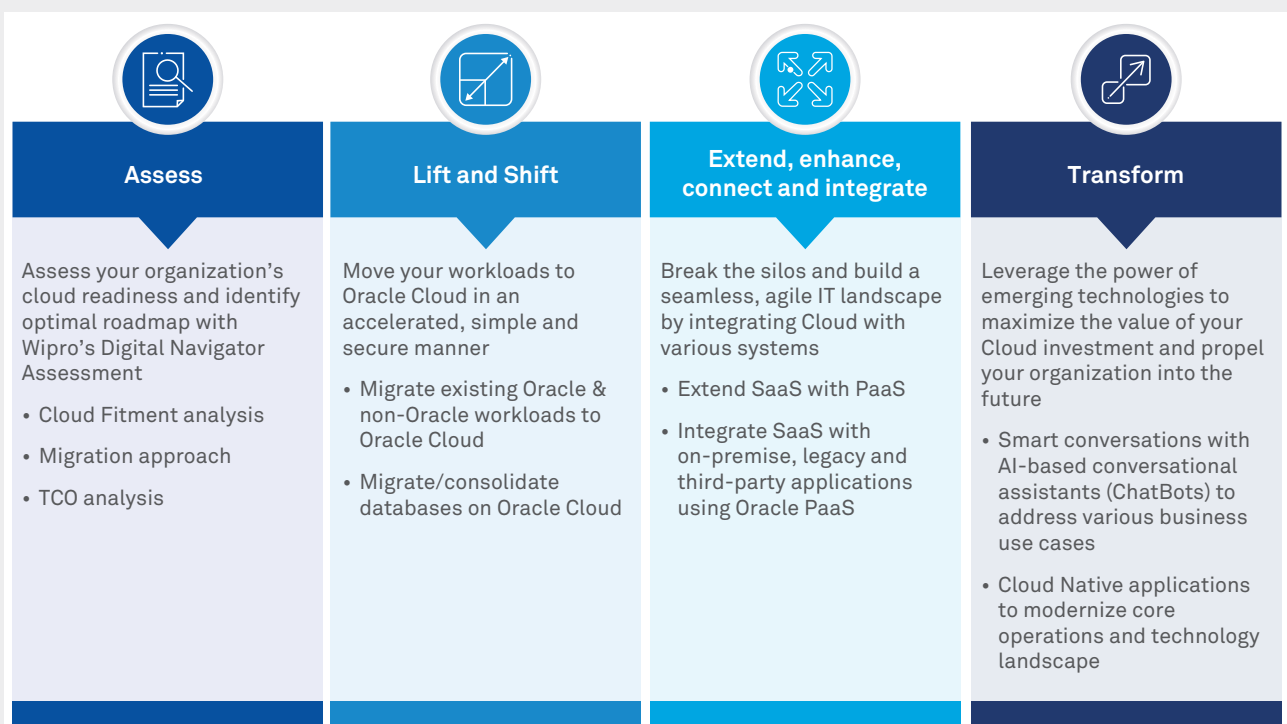

Organizations today are being driven by the need to modernize and improve agility. At the same time, they aim to reduce risk and expenditure. In this scenario, Cloud has emerged as the favored path to accelerate business and innovate on the go. Analysts indicate that over 75% of enterprises will shut down their traditional data centers in the coming decade.

Leading this change is **Oracle Cloud Infrastructure** – Cloud services that enable you to build and run a wide range of applications and services in a highly available hosted

environment. Oracle Cloud Infrastructure offers high-performance compute capabilities and storage capacity in a flexible overlay virtual network that is securely accessible from your on-premises network.

Wipro, a Cloud Elite partner of Oracle, provides future-ready solutions on Oracle Cloud Infrastructure. Wipro brings consulting expertise, Cloud solutions and industry expertise to help customer propel their digital transformation journey with Oracle Cloud.
