

Pharmacovigilance transformation services

Reduce the overall time to intake cases and validate and process to reduce pharmacovigilance (PV) operations by 45% with Wipro's Intelligent Automation Platform TaloSafe

Achieve complete, correct and compliant pharmacovigilance case processing output through a global hyper automation driven model wherein pharmacovigilance operations with Wipro's PV Automation Service Platform – 'TaloSafe'. Our solution includes intelligent automation driven by RPA, artificial intelligence, proprietary workflow engine, and operations management systems that enable you to customize processes and metrics to the customers' specifications. Our framework lets you track the process, monitor metrics and extract meaningful reports to ensure you are always compliant and audit ready.

Wipro's Pharmacovigilance Operation Services balance innovation and risk, while providing the fastest case processing and the highest quality.

Wipro's Pharmacovigilance Operation Services balance innovation and risk, while providing,

AI based intelligent Digital Case Processor

Interpret unstructured free text & most ADR forms

Has multiple case intake channels with cognitive BOTS along with final data on safety tools

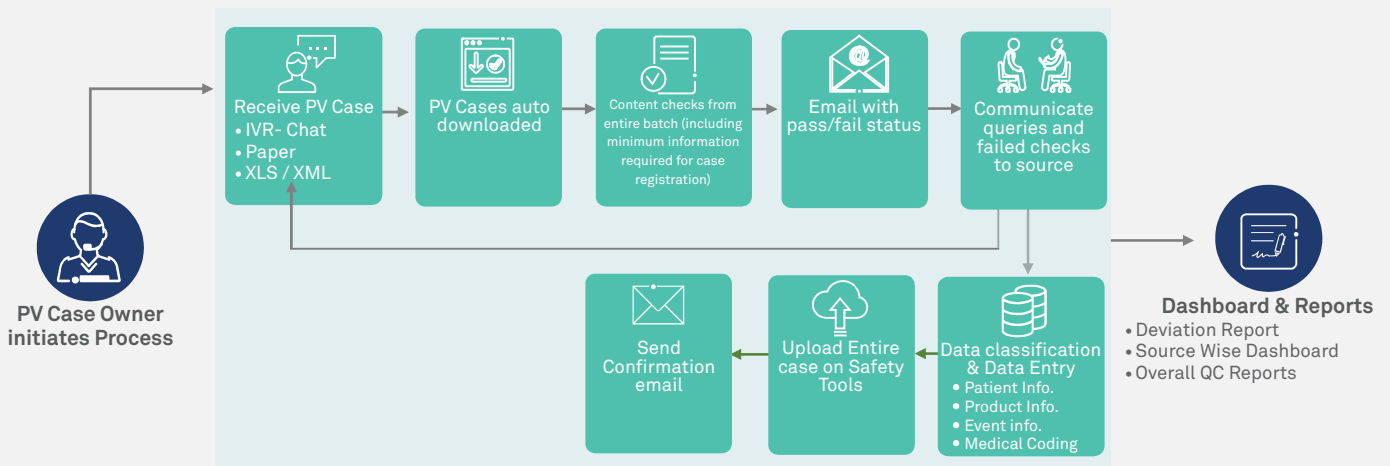

Provides operational & performance insights

Does e2e case management

Pharmacovigilance Automation Workflow

Key Benefits

- Alleviate the bandwidth of the customer's existing staff on standard PV operations and implementation management
- Harness a flexible and easy to scale outsourced SLA driven, service-oriented model
- Enable the quality and efficiency of PV operations to deliver up to 40% savings in a secure, proficient manner
- Achieve risk-free seamless implementation of the new safety solution with increase in operational efficiencies up to 50%

Features

- Unstructured information interpretation with clinical context
- Causality & other relationships inferencing require extensive clinical and process knowledge
- Updates additional information from the source document
- Registers a new case reporting the adverse event into the database
- Medical practitioner feedback is built into the cognitive engine to refine and increase the confidence level

TaloSafe is built on layers of client knowledge with over 10 years of managing PV operations and more than 10 million cases processed.
