

Wipro's Intelligent Document Management Solution

Transforming enterprise document management landscape to enable higher compliance & faster processing

Wipro's Intelligent Document Management solution is a one stop to handle multi-format handwritten, printed, structured and unstructured documents. Intelligent documents classification and extraction coupled with smart workflow management ensures accurate information dissipation across your organization. Our solution leverages interactive reports and dashboards to provide actionable business insights.

-  Intelligent document extraction enables higher STP of input documents
-  Operations management enabled by Wipro Base)))™ with enhanced transparency and control across all document operations
-  Enhanced compliance, productivity and accuracy of data processed across document and data value chain

Enable digitized operations leveraging intelligent work allocation along with intelligent OCR engine to handle higher volumes, reducing overall cycle time and improving processing compliance.

Key features

One stop shop for
enterprise document
management requirements

Intelligent work allocation

- Extended tracking and transparency
- Document routing to downstream systems

Intelligent document digitization

- Template less document reconstruction & processing
