

Wipro Way2Go - Digital travel and expense

Corporate
travel simplified

Digitization of back office services is now an operational priority for every enterprise. Employees demand a consumer-like experience from their enterprise services – intuitive interfaces, real-time fulfillment, contextual insight and an overall delightful experience. Travel and Expense (T&E) Management, the second largest operational expense for most enterprises, therefore calls for immediate digitization.

Wipro Way2Go for the business traveler

Wipro Way2Go leverages new age technology and simplifies the corporate travel experience with an easy-to-use, self-service booking tool that helps optimize cost and improve process efficiency.

Wipro Way2Go – a one-stop travel and expense offering includes:

Enterprise online booking tool

- Enterprise travel authorization
- Flights and hotels

Expense management

- Click and upload receipt
- Automated expense report generation

Travel fulfillment

- End-to-end travel management platform
- Way2Go's technology is independent of any travel agency or GDS.

Analytics and reporting

- Real-time online visibility into travel spend – BU, geo, band, vendor, quarter wise analysis
- Budget control and alerts independent of any travel agency or GDS.

The Wipro Way2Go platform is hosted on Microsoft Azure, and has a multi-channel access through web and mobile. The platform enables online integration into enterprise systems with quick and straightforward travel authorization for the employee. The API integrations with multiple fulfillment, technology and content partners enable the platform to offer a rich experience through the self-booking tool, with competitive and comprehensive travel deals globally.

Wipro Way2Go for the enterprise

Wipro Way2Go offers an event-driven architecture that connects to the enterprise, and enterprise ecosystem through API calls for faster responses, higher scalability and better security. At the core of the platform is a configurable rules engine for complex business rules as well as global travel policies. This enables enterprises to seamlessly configure and enforce their travel and compliance policies.

The platform also offers deep insights into T&E spends through its rich analytics dashboard, which helps enterprises obtain spend visibility and identify opportunities for cost reduction. It provides insights into travel spend across several parameters, airline and hospitality heat maps, budget versus spend analysis, spend trend and policy deviation, etc.

Key benefits

The key benefits of the Wipro Way2Go platform include:

Intuitive user experience

The platform offers seamless experience to users for booking flights, accommodation and ground transportation. Apart from easy travel request fulfillment and paperless expense settlement, it allows users to set travel and hospitality preferences and receive notifications.

Cost optimization

Hosted on the cloud, Wipro Way2Go does not require any investment for physical infrastructure and maintenance, thereby reducing the overall cost. The platform also simplifies the travel and expense management process and reduces the overall processing cycle time. The powerful analytics module reveals interesting insights for direct cost savings – such as departure to issue price change and preferred vendors' analysis.

Policy compliance

The platform offers highly flexible rules engine to integrate enterprise specific T&E policies. It also enables the identification of non-complying travelers and outliers.

Valuable insights

Wipro Way2Go's advanced analytics provides enhanced visibility into overall travel and accommodation costs and trends. Data can be drilled down to the finest level for smart decision-making and effective spend planning. It also leverages prescriptive analytics to identify the likelihood of future outcomes based on historical data.

Independence and control

Way2Go travel solution works with any travel management company, GDS or any aggregator. Robust business rules ensure consistent travel policy enforcement – putting organizations in complete control of their corporate travel booking process.

Four Way2Go Models : Select the model that is right for you

Way2Go Enterprise

The Way2Go Enterprise offering is for large size corporations, which is a fully loaded Way2Go model that includes an end-to-end solution for corporate travel. It is backed by advanced feature options like the online-booking portal with complex rule engine, pre-trip/auto approval, fulfilment platform for travel management company, expense integration and data analytics module.

Way2Go Lite
