Cloud Transformation Consulting: Enabling the enterprise cloud journey

wipro

Introduction

Cloud technology is rapidly proliferating and proving to be the new normal for enterprises. The changes in the working environment across the globe have accelerated cloud adoption across industries. It has become one of the fastest-growing segments of IT spend in the enterprises. With greater spend comes greater responsibility and challenges for CIOs in a dynamic and complex business environment. In addition, data privacy and security are primary concerns triggered by these changes. Wipro endeavors to provide value-driven consultancy for managing challenges and generating impact during the cloud journey.

Practice overview

Wipro offers the full spectrum of cloud transformation consulting services including applications, infrastructure, data, and security elements to support businesses throughout the cloud journey. Cloud transformations are complex, and there's no 'one-solution-for-all' approach. The unique and modular 5*4 cloud consulting services framework helps meet the demands of industries and enterprises while keeping cultural transformation and economics in mind. Depending upon the level of cloud maturity of an enterprise, Wipro can collaboratively engage in defining the cloud roadmap, thereby prioritizing and accelerating cloud adoption. Wipro's cross-industry experience, global expertise, and in-house built framework and proprietary tools uniquely distinguish us as a strategic partner for enterprises in achieving their cloud transformation goals.

Wipro's full spectrum of services deliver value added outcomes to customers in their cloud transformation journey by:

Creating a foundation by building a business case and strategy

Selecting the right cloud solution for the organization

Planning and prioritizing future needs of the organization

Anticipating and managing the change

Bringing continuous automation and value creation

Modernizing of legacy systems in a cost-effective manner

Optimizing cloud spend

Wipro helps organizations mitigate challenges at all stages of the cloud transformation

Cloud Journey

Initiation stage–
Build a comprehensive business case and roadmap

Adoption stage–
Manage unforeseen challenges and risks

Maturity stage –
Support to get the desired outcomes

# Wipro's 5*4 Cloud Transformation Consulting Framework

Wipro's 5x4 Cloud Consulting Services Framework comprehensively covers all stages of the cloud adoption and migration journey. The framework is built in a modular fashion to ensure seamless collaboration with enterprises that are yet to start the journey or are already in the midst of cloud adoption.

The framework covers five core cloud consulting themes: assessment, strategy and roadmap, solution design, app modernization, and delivery and optimization.

The framework includes standardized processes, methodologies, and templates to capture the desired outcomes. Wipro's consultants follow this standardized framework, while helping customers in their cloud adoption journey.

Cloud Transformation Consulting Services – 5*4 Consulting Framework

Exploratory Assessment	Strategy and Roadmap	Solution Design	App Modernization	Deliver & Optimize
Infrastructure Assessment	Business & IT Alignment	Reference Architecture	App Assessment & Roles	Migration Strategy
Application Assessment	Adoption Framework	Cloud Native Adoption	Organization Constraints	Design Validation & POC
Security & Risk Assessment	Governance Framework	Cloud Operating Model	Analyze, Map, Automate	Optimization
Resource Assessment	Next Gen Tech Framework	R-Laning	Modernization Strategy	Project Management
Assessment Report	Transformation Roadmap	Solution Document	Modernization Roadmap	Optimization Reports
(4-6 Weeks)	(4 Weeks)	(3-4 Weeks)	(4-6 Weeks)	Aligned with Cloud Impl Partner

Cloud Centre of Excellence (CCoE) Services – Innovate and Advise

Wipro helps customers establish the Cloud Center of Excellence (CCoE) that covers the 5x4 Consulting Framework

Wipro helps customers establish the Cloud Center of Excellence (CCoE) to guide them in their cloud journey. With its modular approach, the CCoE can add value depending upon the level of cloud maturity in an enterprise. It acts as a hub for decision-making and communication (internal and external) for the cloud program. It offers a continuum of consulting services to design, transform, re-architect, and migrate workloads to the cloud while efficiently governing the new cloud landscape. Our proven governance and collaborative processes help customers in establishing the right environment and decision making process within their systems.
