WIPRO LLC

NOTES TO THE FINANCIAL STATEMENTS

(Amount in Rupees, except share and per share data, unless otherwise stated)

1. Company overview

Wipro LLC (formerly known as Wipro Inc) (“the Company”) is a subsidiary of Wipro Limited (“the holding company”). The Company is incorporated in USA and is engaged in the software development services.

2. Significant accounting policies

(i) Basis of preparation of financial statements

The financial statements are prepared to comply with the requirements of Section 129(3) and 136(1) of the Companies Act, 2013 ('Act') in accordance with Generally Accepted Accounting Principles in India (GAAP) under the historical cost convention on the accrual basis. GAAP comprises mandatory accounting standards as prescribed under Section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014, the provisions of the Act (to the extent notified and applicable), Accounting Standards ('AS') issued by Institute of Chartered Accountants of India (ICAI) and other generally accepted accounting principles in India. The financial statements are presented in Indian rupees and rounded off to the nearest rupee. The company's functional currency is US Dollar.

(ii) Use of estimates

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities and the disclosure of contingent liabilities as at the date of financial statements and reported amounts of income and expenses during the year. Estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates is recognized in the year in which the estimates are revised and in any future year affected.

(iii) Goodwill

Goodwill arising on acquisition of a group of assets is not amortized and is tested for impairment if indicators of impairment exist.

(iv) Tangible assets and Capital work-in-progress

Fixed assets are stated at historical cost less accumulated depreciation and impairment loss, if any. Costs include expenditure directly attributable to the acquisition of the asset. Borrowings costs directly attributable to the construction or production of qualifying assets are capitalized as part of the cost.

Cost of fixed assets not ready for use before the balance sheet date is disclosed as capital work-in-progress. Advances paid towards the acquisition of fixed assets outstanding as of each balance sheet date is disclosed under long term loans and advances.

WIPRO LLC
NOTES TO THE FINANCIAL STATEMENTS
(Amount in Rupees, except share and per share data, unless otherwise stated)

(v) Investments

Long term investments are stated at cost less other than temporary diminution in the value of such investments, if any. On disposal of the investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

(vi) Provisions and contingent liabilities

Provisions are recognized when the Company has a present obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Provision for onerous contracts is recognized when the expected benefits to be derived from the contract are lower than the unavoidable cost of meeting the future obligations under the contract.

(vii) Revenue recognition

Services:

The Company recognizes revenue when the significant terms of the arrangement are enforceable, services have been delivered and the collectability is reasonably assured. The method of recognizing the revenues and costs depends on the nature of the services rendered:

A. Time and material contracts

Revenues and costs relating to time and material contracts are recognized as the related services are rendered.

B. Fixed-price contracts

Revenues from fixed-price contracts, including systems development and integration contracts are recognized using the "percentage-of-completion" method. Percentage of completion is determined based on project costs incurred to date as a percentage of total estimated project costs required to complete the project. When total cost estimates exceed revenues in an arrangement, the estimated losses are recognized in the statement of profit and loss in the period in which such losses become probable based on the current contract estimates.

'Unbilled revenues' included in other current assets represent cost and earnings in excess of billings as at the balance sheet date. 'Unearned revenues' included in other current liabilities represent billing in excess of revenue recognized.

WIPRO LLC

NOTES TO THE FINANCIAL STATEMENTS

(Amount in Rupees, except share and per share data, unless otherwise stated)

C. Maintenance Contracts

Revenue from maintenance contracts is recognized ratably over the period of the contract using the percentage of completion method. When services are performed through an indefinite number of repetitive acts over a specified period of time, revenue is recognized on a straight-line basis over the specified period unless some other method better represents the stage of completion.

In certain projects, a fixed quantum of service or output units is agreed at a fixed price for a fixed term. In such contracts, revenue is recognized with respect to the actual output achieved till date as a percentage of total contractual output. Any residual service unutilized by the customer is recognized as revenue on completion of the term.

Products:

Revenue from sale of products is recognized when the significant risks and rewards of ownership has been transferred in accordance with the sales contract.

Other income:

Interest is recognized using the time-proportion method, based on rates implicit in the transaction.

Dividend income is recognized when the Company's right to receive dividend is established.

(viii) Leases

Leases of assets, where the Company assumes substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalized at the lower of the fair value of the leased assets at inception and the present value of minimum lease payments. Lease payments are apportioned between the finance charge and the outstanding liability. The finance charge is allocated to periods during the lease term at a constant periodic rate of interest on the remaining balance of the liability.

Leases where the lessor retains substantially all the risks and rewards of ownership are classified as operating leases. Lease rentals in respect of assets taken under operating leases are charged to statement of profit and loss on a straight line basis over the lease term.

In certain arrangements, the Company recognizes revenue from the sale of products given under finance leases. The Company records gross finance receivables, unearned income and the estimated residual value of the leased equipment on consummation of such leases. Unearned income represents the excess of the gross finance lease receivable plus the estimated residual value over the sales price of the equipment. The Company recognizes unearned income as financing revenue over the lease term using the effective interest method.

WIPRO LLC
NOTES TO THE FINANCIAL STATEMENTS
(Amount in Rupees, except share and per share data, unless otherwise stated)

(ix) Foreign currency transactions

The Company is exposed to currency fluctuations on foreign currency transactions. Foreign currency transactions are accounted in the books of account at the exchange rates prevailing on the date of transaction.

Transaction

The difference between the rate at which foreign currency transactions are accounted and the rate at which they are realized is recognized in the statement of profit and loss.

Translation

The Company is a foreign subsidiary of Wipro Limited and has been treated as a non-integral operating unit for translation. Monetary foreign currency assets and liabilities, other than net investments in non-integral foreign operations, at period end are restated at the closing rate. The difference arising from restatement is recognized in the statement of profit and loss. Exchange differences arising on the translation of a monetary item that, in substance, forms part of non-integral foreign operation are accumulated in a foreign currency translation reserve (FCTR). When a foreign operation is disposed of, the relevant amount recognized in FCTR is transferred to the statement of profit and loss as part of the profit or loss on disposal.

(x) Depreciation and amortization

The Company has provided for depreciation using straight line method over the useful life of the assets as given below:

Class of asset	Estimated useful life
Plant and Machinery	15 years
Computer including telecom equipment and software (included under plant and machinery)*	2 - 7 years
Furniture and fixtures*	5 - 6 years
Electrical installations (included under plant and machinery)*	5 years

Assets under finance lease are amortized over their estimated useful life or the lease term, whichever is lower.

(xi) Impairment of assets

Financial assets:

The Company assesses at each balance sheet date whether there is any objective evidence that a financial asset or group of financial assets is impaired. If any such indication exists, the Company estimates the amount of impairment loss. The amount of loss for short-term receivables is

WIPRO LLC**NOTES TO THE FINANCIAL STATEMENTS****(Amount in Rupees, except share and per share data, unless otherwise stated)**

measured as the difference between the assets carrying amount and undiscounted amount of future cash flows. Reduction, if any, is recognized in the statement of profit and loss. If at the balance sheet date there is any indication that a previously assessed impairment loss no longer exists, the recognized impairment loss is reversed, subject to maximum of initial carrying amount of the short-term receivable.

Other than financial assets:

The Company assesses at each balance sheet date whether there is any indication that a non-financial asset including goodwill may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs to is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the statement of profit and loss. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciated historical cost. In respect of goodwill, the impairment loss will be reversed only when it was caused by specific external events of an exceptional nature that is not expected to recur and their effects have been reversed by subsequent external events.

(xii) Employee benefits

The employees of the Company are entitled to compensated absence. The employees can carry-forward a portion of the unutilized accrued compensated absence and utilize it in future periods or receive cash compensation at retirement or termination of employment for the unutilized accrued compensated absence. The Company records an obligation for compensated absences in the year in which the employee renders the services that increase this entitlement. The Company measures the expected cost of compensated absence as the additional amount that the Company expects to pay as a result of the unused entitlement that has accumulated at the balance sheet date. The company recognizes accumulated compensated absences based on actuarial valuation. Non-accumulating compensated absences are recognized in the period in which the absences occur. The company recognizes actuarial gains and losses immediately in the statement of profit and loss.

(xiii) Employee stock options

The company determines the compensation cost based on the intrinsic value method. The compensation cost is amortized on a straight line basis over the vesting period.

(xiv) Taxation***Current tax***

The current charge for income taxes is calculated in accordance with the relevant tax regulations.

Deferred tax

WIPRO LLC

NOTES TO THE FINANCIAL STATEMENTS

(Amount in Rupees, except share and per share data, unless otherwise stated)

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to timing differences that result between the profit offered for income taxes and the profit as per the financial statements of the Company.

Deferred tax assets and liabilities are measured using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the period that includes the enactment/substantial enactment date.

Deferred tax assets on timing differences are recognized only if there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. However, deferred tax assets on the timing differences when unabsorbed depreciation and losses carried forward exist, are recognized only to the extent that there is virtual certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized.

Deferred tax assets are reassessed for the appropriateness of their respective carrying amounts at each balance sheet date.

The company offsets, on a year on year basis, the current and non-current tax assets and liabilities, where it has a legally enforceable right and where it intends to settle such assets and liabilities on a net basis.

(xv) Earnings/ (loss) per share

Basic

The number of equity shares used in computing basic earnings per share is the weighted average number of shares outstanding during the year.

Diluted

The number of equity shares used in computing diluted earnings per share comprises the weighted average number of equity shares considered for deriving basic earnings per share, and also the weighted average number of equity shares that could have been issued on the conversion of all dilutive potential equity shares, if any.

Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. The number of equity shares and potentially dilutive equity shares are adjusted for any stock splits and bonus shares issued, if any.

(xvi) Cash flow statement

Cash flows are reported using indirect method, whereby net profits before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular revenue generating, investing and financing activities of the Company are segregated.

3. Share Capital

(i) The details of share capital are given below

Particulars	As at March 31,	
	2015	2014
Authorized Capital		
180,378 (2014: 180,378) Common stock of USD 2,500 each	23,136,544,088	23,136,544,088
	23,136,544,088	23,136,544,088
Issued, subscribed and fully paid-up capital		
180,378 (2014: 180,378) Common stock of USD 2,500 each	23,136,544,088	23,136,544,088
	23,136,544,088	23,136,544,088

(ii) Reconciliation of number of Common stock

Particulars	As at March 31, 2015		As at March 31, 2014	
	No. of Shares	Amount	No. of Shares	Amount
Number of Common stock outstanding as at beginning of the year	180,378	23,136,544,088	180,378	19,919,290,616

Earnings per share basic and diluted (face value: USD 2,500 each)	(668)	6,875

27. Deferred tax asset / (liability)

Wipro LLC was converted from a C-Corp to Limited Liability Corporation (LLC) effective close of business March 31, 2013. The Company has elected to be treated as a disregarded entity for tax purposes effective from April 1, 2013. Consequent to the election made Wipro LLC is liquidated for tax purposes. All the assets and liabilities of LLC as on the date of election are treated to have been distributed to its member i.e., Wipro Ltd ("Ltd"). Further, the profit/(loss) of LLC of each subsequent year will be treated as the profit/(loss) of its member i.e., Wipro Limited will (compensate)/collect accordingly for the tax (loss)/profit distributed to it by the Company.

	As at March 31,	
	2015	2014
Not later than 1 year	41,549,710	45,263,464
Later than 1 year not later than 5 years	82,057,712	105,294,473
Later than 5 years	-	-
Unguaranteed residual value	-	-
	123,607,422	150,557,937

30. Employee stock option

i) Employees covered under Stock Option Plans and Restricted Stock Unit (RSU) Option Plans (collectively "stock option plans") are granted an option to purchase shares of Wipro Limited at the respective exercise prices, subject to requirements of vesting conditions. These options generally vest over a period of five years from the date of grant. Upon vesting, the employees can acquire one equity share for every option. The maximum contractual term for these stock option plans is generally 10 years.

ii) The stock compensation cost is computed under the intrinsic value method and amortized on a straight line basis over the total vesting period of five years. The intrinsic value on the date of grant approximates the fair value. For the year ended March 31, 2015, the Company has recorded stock compensation expense of Rs.7,391,157 (2014: Rs.2,268,155).

iii) The compensation committee of the Board of Directors of Wipro Limited evaluates the performance and other criteria of employees and approves the grant of options. These options vest with employees over a specified period subject to fulfillment of certain conditions. Upon vesting, employees are eligible to apply and secure allotment of Wipro Limited shares at a price determined on the date of grant of options. The particulars of options granted under various plans are tabulated below. (The number of shares in the table below is adjusted for any stock splits and bonus shares issues).

A summary of the general terms of grants under stock option plans and restricted stock unit option plans are as follows:

Name of Plan	Authorized Shares	Range of Exercise Prices
Stock Option Plan (2000 ADS Plan)	15,000,000	US\$ 3 – 7
Wipro ADS Restricted Stock Unit Plan (WARSUP 2004 plan)	20,000,000	US\$ 0.04

The activity in these stock option plans is summarized below:

	2015			2014		
	Range of Exercise Prices	Number	Weighted Average Exercise Price	Number	Weighted Average Exercise Price	
Outstanding at the beginning of the period	US\$ 0.04	8,159	US\$ 0.04	11,494	US\$ 0.04	
Granted	US\$ 0.04	20,000	US\$ 0.04	-	US\$ 0.04
