INDEPENDENT AUDITOR'S REPORT

Report on the Financial Statements:

We have audited the accompanying Balance Sheet of Wipro Insurance Solutions LLC as of March 31, 2018 and 2017 and the related statements of operations, changes in member's equity and statement of cash flows for the year then ended.

Management's Responsibility for the Financial Statements.

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Company's 'preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstance, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Wipro Insurance Solutions LLC as of March 31, 2018 and 2017 and the results of its operations and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Note 1 - Nature of Operations

Wipro Insurance Solutions LLC (the "Company"), organized in the State of Delaware, is a wholly owned subsidiary of Wipro, LLC. The Company was formed to provide end to end administrative functions and services for life and annuity, property and casualty, and healthcare insurance carriers. The Company also intends to be a service provider to various insurers, brokers, carriers and providers of insurance across the United States and a vehicle through which the parent company will operate credit card collection support for its customers in the United States. The Company currently holds collection licenses in 49 states, 4 cities, and District of Columbia. The company also holds 25 third party administrative licenses.

Note 2 - Summary of Significant Accounting Policies

Estimates

The preparation of the Company's financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the financial statements and related disclosures. Management believes that the estimates utilized in the preparation of these financial statements are prudent and reasonable. Actual results could differ from those estimates.

Cash in Bank

Cash is held in bank deposit accounts which, at times, may exceed federally insured limits.

Income Taxes

The Company has made a provision for income taxes for the year ended March 31, 2018.

1.2 1/11/1 2018

Note 2 - Summary of Significant Accounting Policies (Continued)

Revenue Recognition

The Company derives revenue primarily from business process services

Services:

The Company recognizes revenue when the significant terms of the arrangement are enforceable, services have been delivered and the collectability is reasonably assured. The method of recognizing the revenues and costs depends on the nature of the services rendered:

A. Time and material contracts

Revenues and costs relating to time and material contracts are recognized as the related services are rendered.

B. Fixed-price contracts

Revenues from fixed-price contracts, including systems development and integration contracts are recognized using the "percentage-of-completion" method. Percentage of completion is determined based on project costs incurred to date as a percentage of total estimated project costs required to complete the project. The cost expended (or input) method has been used to measure progress towards completion as there is a direct relationship between input and productivity. If the Company does not have a sufficient basis to measure the progress of completion or to estimate the total contract revenues and costs, revenue is recognized only to the extent of contract cost incurred for which recoverability is probable. When total cost estimates exceed revenues in an arrangement, the estimated losses are recognized in the statement of profit and loss in the period in which such losses become probable based on the current contract estimates.

'Unbilled revenues' represent cost and earnings in excess of billings as at the end of the reporting period. 'Unearned revenues' represent billing in excess of revenue recognized. Advance payments received from customers for which no services have been rendered are presented as 'Advance from customers'.

See Independent Auditor's Report

Director 17 IUN 2018

Director 12 JUN 2018

Note 2 - Summary of Significant Accounting Policies (Continued)

Revenue Recognition (continued)

C. Maintenance Contracts

Revenue from maintenance contracts is recognized ratably over the period of the contract using the percentage of completion method. When services are performed through an indefinite number of repetitive acts over a specified period of time, revenue is recognized on a straight-line basis over the specified period unless some other method better represents the stage of completion.

In certain projects, a fixed quantum of service or output units is agreed at a fixed price for a fixed term. In such contracts, revenue is recognized with respect to the actual output achieved till date as a percentage of total contractual output. Any residual service unutilized by the customer is recognized as revenue on completion of the term.

D. Others

The Company accounts for volume discounts and pricing incentives to customers by reducing the amount of revenue recognized at the time of sale.

Revenues are shown net of sales tax, value added tax, service tax and applicable discounts and allowances.

The Company accrues the estimated cost of warranties at the time when the revenue is recognized. The accruals are based on the Company's historical experience of material usage and service delivery costs.

Costs that relate directly to a contract and incurred in securing a contract are recognized as an asset and amortized over the contract term.

Contract expenses are recognized as expenses by reference to the stage of completion of contract activity at the end of the reporting period.

Other income

Interest is recognized using the time-proportion method, based on rates implicit in the transaction. "
