F +974 44319114
www.grantthornton.qa**Report on the Audit of the Financial Statements****Opinion**

We have audited the financial statements of **WIPRO DOHA L.L.C.** (the Company), which comprise the statement of financial position as at March 31, 2026, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at March 31, 2026, its financial performance and its cash flows for the year then ended in accordance with IFRS Accounting Standards.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in the State of Qatar, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Report on Other Legal and Regulatory Requirements

As required by the Qatar Commercial Companies Law Number 11 of 2015 (as amended by Law no. 8 of 2021), we report that:

- We have obtained all the information, we considered necessary for the purpose of our audit;
- The Company has maintained proper books of accounts and financial statements are in agreement therewith;
- The Company has zero value of inventories as at March 31, 2026;
- The financial information included in the board of directors report is in agreement with the books and records of the Company; and

- Nothing has come to our attention which causes us to believe that the Company has breached any of the provision of the Qatar Commercial Companies Law of 2015(as amended by Law no. 8 of 2021), or of its Article of Association, which would materially affect the reported results of its operations or its financial position as at March 31, 2026.

WIPRO DOHA L.L.C.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2026

1 Legal status and nature of operations

Wipro Doha L.L.C. (the Company) was incorporated in the State of Qatar on February 26, 2014 with Commercial Registration No. 64483. The Company is governed by the provisions of the Qatar Commercial Companies Law No. 11 of 2015 as amended by Law No. 8 of 2021. The Company was established to engage in consultative services in the field of information technology and services relevant to computers. It also trades in the requirements of computers, word processors, accessories, computer systems and programs and carries out any activity which is incidental or conducive.

The Company's registered office address is P.O. Box No. 31316, Doha State of Qatar.

The shareholding structure of the Company is given below :

| Name | Nationality | Percentage | Amount |
|-------------------------------|--------------------|-------------------|---------------|
| Wipro IT Services UK Societas | UK | 100% | 200,000 |
| | | 100% | 200,000 |

The holding Company (Wipro IT Services UK Societas) acquired the remaining 51% shareholding from Links Facility Services Qatar L.L.C. on 1 November 2022 and became the 100% shareholder of the Company.

2 Statement of compliance

The financial statements have been prepared in accordance with IFRS Accounting Standards.

3 Basis of preparation

The Company's management has made an assessment of the Company's ability to continue as a going concern and satisfied that the Company has the resources to continue its business for the foreseeable future. Furthermore, the management is not aware of any material uncertainties that may cast significant doubt upon the Company's ability to continue as a going concern. Therefore, the financial statements continue to be prepared on a going concern basis.

4 New Accounting Standards, Amendments And IFRIC Interpretations

Adoption of new and revised Standards

During the current period, the company adopted the below amendments and improvements to the International Financial Reporting Standards that are effective for annual periods beginning on April 01, 2024:

Topic

Amendments

Effective date

Lack of Exchangeability (Amendments to IAS 21)

January 01, 2025

Amendments to the SASB standards to enhance their international applicability

January 01, 2025

The adoption of the above did not result in any changes to previously reported net profit or equity of the Company

Standards issued but not yet effective

A number of standards and amendments to standards are issued but not yet effective and the Company has not adopted these in the preparation of these financial statements. The below standards may have a significant impact on the Company's financial statements, however, the Company is currently evaluating the impact of these standards. The Company will adopt the below new standards on the respective effective dates.

WIPRO DOHA L.L.C.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2026

| <u>STANDARDS</u> | <u>Effective for annual periods beginning on or after</u> |
|--|---|
| IFRS 18 Presentation and Disclosures in Financial Statements | January 01, 2027 |
| IFRS 19 Subsidiaries without Public Accountability: Disclosures | January 01, 2027 |
| <u>AMENDMENTS</u> | |
| Amendments IFRS 9 and IFRS 7 regarding the classification and measurement of financial instruments | January 01, 2026 |
| Annual Improvements to IFRS Accounting Standards — Volume 11 | January 01, 2026 |

Certain annual improvements have also been made to a number of standards, which have not been enumerated here for brevity.

5 SIGNIFICANT ACCOUNTING POLICIES

The preparation of financial statements in conformity with IFRS Accounting standards requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making judgment about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which estimates are revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods. However, assumptions and judgments made by management in the application of accounting policies that have significant effect on the financial statements are not expected to result in material adjustment to the carrying amounts of assets and liabilities in the next year.

The areas involving higher degree of judgements or complexity or areas where assumptions and estimates are significant to the financial statements are as follows:

| Description | Note |
|---|---------|
| Property and equipment | 5.1 |
| Impairment and collectability of financial assets | 5.2.1.3 |
| Provisions | 5.3 |
| Employee end of service benefits | 5.9 |
| Taxation | 5.10 |

5.1 Property and equipment

5.1.1 Cost

Property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses (if any).

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repair and maintenance costs are charged to statement of profit or loss during the period in which they are incurred.

5.1.2 Depreciation

Depreciation is charged to the statement of profit or loss on the straight-line method so as to write off the cost of an asset at the rates mentioned in the table below. Depreciation on assets is charged from the day in which an asset is acquired while no depreciation is charged for the day in which the asset is disposed of.

WIPRO DOHA L.L.C.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2026

| Description | Useful Life |
|------------------------|---|
| Leasehold improvements | 5 years or lease period, whichever is lower |
| Office equipment | 5 years |
| Computers | 2-3 years |
| Furniture and fixtures | 5 years |

5.1.3 Derecognition

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and carrying amount of the asset) is included in the statement of profit or loss in the period the asset is derecognized.

5.1.4 Impairment of non financial assets

The carrying amounts of the Company's assets are reviewed at each reporting date to determine whether there is any indication of impairment. If such indication exists, the recoverable amount of such asset is estimated. An impairment loss is recognized wherever the carrying amount of the asset exceeds its recoverable amount. Impairment losses are recognized in statement of profit or loss. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior periods. Such reversal is recognized in statement of profit or loss.

5.2 Financial Instruments - Initial recognition and measurement

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

5.2.1 Financial assets

Classification:

The Company classifies its financial assets in the following measurement categories:

- a) those to be measured subsequently at fair value (either through OCI or through profit or loss), and
- b) those to be measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in statement of profit or loss or other comprehensive income. For investments in equity instruments that are not held for trading, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income (FVOCI).

5.2.1.1 Recognition and derecognition

Regular way purchases and sales of financial assets are recognised on trade date, being the date on which the Company commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Company has transferred substantially all the risks and rewards of ownership.

5.2.1.2 Measurement

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss (FVPL), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in statement of profit or loss.

i) Debt Instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

WIPRO DOHA L.L.C.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2026

Amortised cost: Assets that are held for collection of contractual cash flows, where those cash flows represent solely payments of principal and interest, are measured at amortised cost. Interest income from these financial assets is included in finance income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss and presented in other gains/(losses) together with foreign exchange gains and losses. Impairment losses are presented as separate line item in the statement of profit or loss.

i) ***Debt Instruments***

FVOCI: Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses, which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/(losses). Interest income from these financial assets is included in finance income using the effective interest rate method. Foreign exchange gains and losses are presented in other gains/(losses), and impairment expenses are presented as separate line item in the statement of profit or loss.

FVPL: Assets that do not meet the criteria for amortised cost or FVOCI are measured at FVPL. A gain or loss on a debt investment that is subsequently measured at FVPL is recognised in profit or loss and presented net within other gains/(losses) in the period in which it arises.

ii) ***Equity instruments***

The Company subsequently measures all equity investments at fair value. Where the Company's management has elected to present fair value gains and losses on equity investments in OCI, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments continue to be recognised in statement of profit or loss as other income when the Company's right to receive payments is established.

Changes in the fair value of financial assets at FVPL are recognised in other gains/(losses) in the statement of profit or loss as applicable. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

5.2.1.3 Impairment

The Company assesses on a forward-looking basis the expected credit losses associated with its debt instruments carried at amortised cost and FVOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables, the Company applies the simplified approach permitted by IFRS 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

5.2.2 Financial Liabilities

5.2.2.1 Initial recognition and measurement

Financial liabilities are classified, at initial recognition, at amortised cost. All financial liabilities are recognised initially at fair value and net of directly attributable transaction costs.

5.2.2.2 Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

WIPRO DOHA L.L.C.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2026

5.2.2.3 Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

5.3 Provisions

Provisions for legal claims, service warranties and make good obligations are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense in statement of profit or loss.

5.4 Trade receivables

Trade receivables are amounts due from customers for services performed in the ordinary course of business. They are generally due for settlement **within 30 days** and are therefore all classified as current. Trade receivables are recognised initially at the amount of consideration that is unconditional, unless they contain significant financing components, when they are recognised at fair value. The Company holds the trade receivables with the objective of collecting the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method.

a) Impairment of trade receivables

The Company applies the IFRS 9 "simplified approach" to measuring expected credit losses which uses a lifetime expected loss allowance for all trade receivables as mentioned in note 5.2.1.3.

5.5 Revenue recognition

5.5.1 Revenue from software development and IT services

The Company derives revenue primarily from software development, maintenance of software/hardware and related services, business process services, sale of IT and other products.

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products or services. To recognize revenues, the Company applies the following five-step approach: (1) identify the contract with a customer, (2) identify the performance obligations in the contract, (3) determine the transaction price, (4) allocate the transaction price to the performance obligations in the contract, and (5) recognize revenues when a performance obligation is satisfied.

At contract inception, the Company assesses its promise to transfer products or services to a customer to identify separate performance obligations. The Company applies judgement to determine whether each product or service promised to a customer is capable of being distinct, and is distinct in the context of the contract, if not, the promised products or services are combined and accounted as a single performance obligation. The Company allocates the arrangement consideration to separately identifiable performance obligations based on their relative stand-alone selling price or residual method. Stand-alone selling prices are determined based on sale prices for the components when it is regularly sold separately, in cases where the Company is unable to determine the stand-alone selling price the Company uses third-party prices for similar deliverables or the company uses expected cost-plus margin approach in estimating the stand-alone selling price

WIPRO DOHA L.L.C.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2026

For performance obligations where control is transferred over time, revenues are recognised by measuring progress towards completion of the performance obligation. The selection of the method to measure progress towards completion requires judgment and is based on the nature of the promised products or services to be provided

The method for recognizing revenues and costs depends on the nature of the services rendered:

Services:

a. Time and material contracts

Revenues and costs relating to time and materials contracts are recognised as the related services are rendered.

b. Fixed Price contracts

i) Fixed-price development contracts

Revenues from fixed-price contracts, including software development, and integration contracts, where the performance obligations are satisfied over time, are recognised using the “percentage-of-completion” method. Percentage of completion is determined based on project costs incurred to date as a percentage of total estimated project costs required to complete the project. The cost expended (or input) method has been used to measure progress towards completion as there is a direct relationship between input and productivity. If the Company is not able to reasonably measure the progress of completion, revenue is recognised only to the extent of costs incurred for which recoverability is probable. When total cost estimates exceed revenues in an arrangement, the estimated losses are recognised in the statement of profit and loss in the period in which such losses become probable based on the current contract estimates as an onerous contract provision.

A contract asset is a right to consideration that is conditional upon factors other than the passage of time. Contract assets primarily relate to unbilled amounts on fixed-price development contracts and are classified as non-financial asset as the contractual right to consideration is dependent on completion of contractual milestones.

A contract liability is an entity’s obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer.

Unbilled revenues on other than fixed-price development contracts are classified as a financial asset where the right to consideration is unconditional upon passage of time.

ii) Maintenance contracts

Revenues related to fixed-price maintenance, testing and business process services are recognised based on our right to invoice for services performed for contracts in which the invoicing is representative of the value being delivered. If our invoicing is not consistent with value delivered, revenues are recognised as the service is performed using the percentage of completion method. When services are performed through an indefinite number of repetitive acts over a specified period, revenue is recognised on a straight-line basis over the specified period unless some other method better represents the stage of completion

In certain projects, a fixed quantum of service or output units is agreed at a fixed price for a fixed term. In such contracts, revenue is recognised with respect to the actual output achieved till to date as a percentage of total contractual output. Any residual service unutilized by the customer is recognised as revenue on completion of the term.

iii) Others

Any change in scope or price is considered as a contract modification. The Company accounts for modifications to existing contracts by assessing whether the services added are distinct and whether the pricing is at the stand-alone selling price. Services added that are not distinct are accounted for on a cumulative catch-up basis, while those that are distinct are accounted for prospectively, either as a separate contract if the additional services are priced at the stand-alone selling price, or as a termination of the existing contract and creation of a new contract if not priced at the stand-alone selling price.

WIPRO DOHA L.L.C.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2026

The Company assesses the timing of the transfer of goods or services to the customer as compared to the timing of payments to determine whether a significant financing component exists. As a practical expedient, the Company does not assess the existence of a significant financing component when the difference between payment and transfer of deliverables is a year or less. If the difference in timing arises for reasons other than the provision of finance to either the customer or us, no financing component is deemed to exist

5.6 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market is accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The principal or the most advantageous market is accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Company's management determines the policies and procedures for both recurring fair value measurement and for non-recurring measurement. External valuers may be involved for valuation of significant assets and significant liabilities. For the purpose of fair value disclosures, the Company determines classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

5.7 Statutory Reserve

In accordance with Qatar Commercial Company's Law No.11 of 2015 (as amended by Law No. 8 of 2021) the Company has established a statutory reserve by appropriation of 10% of profit for each year until the reserve equals 50% of the capital. This reserve is not available for distribution except in circumstances as specified in the Law.

5.8 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and bank accounts that are readily convertible into known amounts of cash which are subject to an insignificant risk of changes in value.

WIPRO DOHA L.L.C.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2026

5.9 Employees' benefits

5.9.1 Short-term employee benefits

The cost of short-term employee benefits (those payable within 12 months after the service is rendered such as paid vacation leave and sick leave and non-monetary benefits such as medical care) are recognised in the period in which the service is rendered and are not discounted.

The expected cost of compensated absences is recognised as an expense when the employee renders services that increase their entitlement or, in the case of no accumulating absences, when the absences occur.

The liability recognised in the statement of financial position in respect of employees' end of service indemnity is the present value of the defined benefit obligation at the end of the reporting period.

Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to equity in other comprehensive income in the period in which they arise.

Past-service costs are recognised immediately in the statement of profit or loss and other comprehensive income.

5.10 Taxation

The tax expense for the period comprises current and deferred tax. Tax is recognized in the statement of profit and loss, except to the extent that it relates to items recognised in the other comprehensive income or directly in equity, respectively.

The current income tax charge is calculated on the basis of the Qatar Tax Law No. 24 of 2018. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is recognized, using the liability method, on temporary differences arising between the tax basis of assets and liabilities and their carrying amounts in the financial statements. However, deferred tax liabilities are not recognized if they arise from the initial recognition of goodwill; deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the reporting date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred income tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized.

Deferred income tax is provided on temporary differences arising on investments in subsidiaries and associates, except for deferred income tax liability where the timing of the reversal of the temporary difference is controlled by the group and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income taxes assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entities where there is an intention to settle the balances on a net basis.

The Company has a policy of recording deferred tax assets or liabilities in case of material amounts only.

5.11 Trade and other payables

Trade payables represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. All payables are presented as current liabilities unless payment is not due within twelve months after the reporting year. Trade and other payables are recognised initially at their fair value and subsequently measured at fair value through profit and loss. Trade and other payables are derecognised when they are extinguished (i.e. when the obligation specified in the contract is discharged, cancelled or expires).

WIPRO DOHA L.L.C.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2026

5.12 Foreign currency transactions

These financial statements of the Company are presented in Qatari Riyal, which is the functional currency of the Company. Transactions in currencies other than the Company's functional currency (foreign currencies) are recorded at the rates of exchange prevailing at the dates of transactions. At each reporting date, monetary items denominated in foreign currencies are translated into Qatari Riyal at the rates of exchange prevailing at that date, and exchange differences are recognized in the statement of profit or loss and other comprehensive income.

| Tender Bonds | QAR | - | 1,160,000 |

19 FINANCIAL RISK MANAGEMENT

The Company's financial instrument comprises of trade and other receivables, cash and cash equivalents and trade and other payable. The significant financial risk to which the Company is exposed to described below:

19.1 Credit risk

The Company is exposed to credit risk in respect of trade and other receivables and cash and cash equivalents. Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss.

At the reporting date, the Company's financial assets exposed to credit risk amounted to the following:

| | Note | March 31, 2026 | March 31, 2025 |
|--------------------------|-------------|-----------------------|------------------|
| Trade receivables | 8 | 9,520,328 | 3,123,993 |
| Deposits | | 67,791 | 67,791 |
| Advances | 8 | 471,637 | 91,963 |
| Cash at bank | 10 | 11,110,814 | 3,134,311 |
| Due from Related Parties | 9.2 | 3,553,531 | 3,553,531 |
| Financial assets | | 24,724,101 | 9,971,589 |

The Company's exposure to credit is limited and is controlled as the Company continuously monitors defaults of counterparties, identified either individually or by group, and incorporates this information into its credit risk controls.

The Company's management considers that all the above financial assets that are not impaired or past due for each of the reporting dates under review are of good credit quality.

Cash is placed with reputable banks. The expected credit losses on cash and cash equivalents are immaterial to these financial statements.

19.2 Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. Management closely monitors the Company's liquidity and cash flow position. This includes maintenance of financial position liquidity ratios, debtors and creditors concentration both in terms of the overall finding mix and avoidance of undue reliance on large individual customers.

Ultimate responsibility for liquidity risk management rests with the board of directors, which has built an appropriate liquidity risk management framework for the management of the Company's short, medium and long-term funding and liquidity requirements.

The table below summarizes the maturity profile of the Company's financial liabilities at March 31 based on contractual undiscounted payments.

19.3 Capital management

Capital includes equity attributable to the equity holders. The primary objective of the Company's capital management is to ensure that it maintains a healthy capital ratios in order to support its business and maximize shareholders value. The Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders. No changes were made in the objectives, policies or processes during the years ended March 31, 2025.

The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. Capital includes equity attributable to the equity holders less the reserve, as the Company doesn't hold any long term debt the gearing ratio is not presented.

19.4 Market risk

Market risk is the risk that the value of the financial instrument may fluctuate as a result of changes in market interest rates or the market price due to changes in credit rating of the issuer or the instrument, changes in market sentiments, speculative activities, supply and demand of securities and liquidity in the market. Market risk comprises three types of risks: interest rate risk, currency risk and other price risk.

a) Currency / Foreign exchange rate risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense are denominated in a different currency from the Company's functional currency). Most of the Company's transactions are carried out in Qatari Riyals, thus the company is not exposed to foreign exchange risk.

b) Interest rate risk

Interest rate risk is the risk that the fair value of the future cash flows of a financial instrument may fluctuate because of the changes in market interest rates. Company's exposure to the risk of changes in market interest rates relates primarily to the Company's short-term debt obligations with fixed interest rates.

c) Other price risk

Price risk represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market. The Company is not exposed to equity securities price risk since it does not hold such instruments.

20 FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable willing parties in an arms length transaction. Differences can therefore arise between the book values under historical cost method and fair value estimates. The management believes that the fair value of the financial assets and liabilities of the company are not materially different from their carrying amounts.

The fair values of financial assets and liabilities, together with the carrying amounts shown in the statement of financial position, are as follows:

| | 2025 | | 2024 | |
|--|-------------------|-------------------|-------------------|-------------------|
| | Carrying amount | Fair Value | Carrying amount | Fair Value |
| Assets carried at amortized cost | | | | |
| Financial assets | | | | |
| Trade receivables | 9,520,328 | 9,520,328 | 3,123,993 | 3,123,993 |
| Unbilled receivables | 4,416,767 | 4,416,767 | 3,808,907 | 3,808,907 |
| Contract assets | 39,100 | 39,100 | 39,100 | 39,100 |
| Due from related parties | 24,124 | 24,124 | 3,553,531 | 3,553,531 |
| Cash and cash equivalents | 11,110,814 | 11,110,814 | 3,134,311 | 3,134,311 |
| | 25,111,133 | 25,111,133 | 13,659,842 | 13,659,842 |
| Liabilities carried at amortized cost | | | | |
| Trade and other payables | 1,808,992 | 1,808,992 | 1,044,047 | 1,044,047 |
| Due to related parties | 4,640,416 | 4,640,416 | 8,047 | 8,047 |
| | 6,449,407 | 6,449,407 | 1,052,094 | 1,052,094 |

WIPRO DOHA L.L.C.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2026

(All amounts in Qatari Riyal)

21 GENERAL

21.1 Rounding off

Figures have been rounded off to the nearest Qatari Riyal.

21.2 Subsequent events

Subsequent to the reporting date, the Middle East has experienced an escalation in geopolitical tensions, including military developments involving certain regional actors. These developments have contributed to increased uncertainty and volatility in global financial markets, energy prices, and supply chains.

Qatar continues to maintain a stable economic and regulatory environment, and management has assessed the potential implications of the evolving geopolitical situation on the Company's operations, financial position, and performance. As at the date of approval of these financial statements, the Company's operations remain uninterrupted. Based on the assessment performed, management has not identified any material impact on the Company's assets, financial position, liquidity, or its ability to continue as a going concern. Management will continue to monitor the situation and assess any potential implications for future reporting periods.

21.3 Comparative figures

The comparative figures of the previous year have been regrouped and reclassified, where necessary, in order to conform to the current year's presentation. Such reclassifications do not affect previously reported profit, net assets or equity.

21.4 Date of authorization

These financial statements were approved and authorized for issue on 08 JUN 2026 by the Board of Directors of the Company, signed on their behalf by the Director of the Company.
