Overview

At Wipro, we recognise the value of a diverse workforce. We are committed to providing equal opportunities in employment and fostering an inclusive workplace where all employees are treated with respect and dignity.

At Wipro, workforce diversity is a business imperative. We will strive to ensure that our workforce is representative of all sections of the society. We believe that, by doing so, we would be better equipped to develop and deliver accessible and inclusive products and services. In this way, we hope to be able to meet the needs of our clients and customers better, thus producing business excellence.

This Equal Opportunity Policy is in accordance with the provisions of The Rights of Persons with Disabilities Act, 2016 and Central Government Rules 2017. We will always abide by the principles of the Policy in letter and in spirit.

Policy statement

Wipro is committed to eliminating all forms of unlawful discrimination (which includes direct discrimination, indirect discrimination and denial of reasonable accommodation), bullying and harassment of employees with disabilities.

We continuously strive to ensure that all our facilities, technologies, information and privileges are accessible to employees with disabilities.

We encourage candidates with different disabilities to apply. Our decisions on employment, career progression, training or any other benefits are solely based on merit. We follow an inclusive evaluation process by ensuring that a person with disability is provided with any suitable flexibility and accommodation that may be required so that she/he may be evaluated fairly.

If an employee acquires a disability during her/his employment tenure she/he can return to work at the same rank as before. In case the employee is unable to perform the current job, the organisation will invest in re-skilling the employee for another position at the same rank or higher.

The objectives and the functions of the Council are:

- To ensure compliance with the applicable provisions mandated for private establishments under The Rights of Persons with Disabilities (RPWD) Act, 2016
- To plan and allocate budget for driving the persons with disability charter efficiently.
- To oversee the effective implementation of the company's equal opportunity policy

The Council will meet every quarter to review the progress made and decide the action plan for the next quarter.

She/he will coordinate with the various concerned departments and provide subject matter expertise to implement the plan prepared by the Council. She/he will also raise awareness among all employees in the company to create an inclusive work environment. She/he will present a progress report to the Council every quarter.

They should proactively take steps to ensure that all employees are sensitized and there is no discrimination in recruitment, training, career development and other aspects of employment.

They will work closely with the Global Lead, Persons with Disabilities.

It is the responsibility of each and every employee at Wipro to create an environment that is non-discriminating and inclusive.

5. Maintenance of records

Wipro has a robust and well-defined process for capturing and maintaining the records of its employees. Wipro understands and respects that sharing information about one’s disability is purely a personal preference, and nobody is mandated to do so. Employees who have a disability or medical condition and wish to share the information can fill the Voluntary Self-Identification to disclose their disability at myWipro/myData/Voluntary Self-Disclosure. Also, given that disability or medical ailment can be acquired at any point, an employee can edit the information in the form any time.

Employees who are citizens of India can upload the disability certificate issued by Government of India, which would help them avail Government benefits like income tax exemptions.

Access to the data is given only to the Global Lead, Persons with Disability. Confidentiality of the data will be maintained with certain exceptions like data being made available for security and other relevant functions for ensuring reasonable accommodations. The information will be shared on need basis, on the discretion of the Global Lead, Persons with Disability. The stakeholders other than the Lead, Persons with Disability who are given access to the information will be made to sign an NDA (Non-Disclosure Agreement) to ensure confidentiality.

7. Grievance redressal

Wipro has a well-defined grievance redressal mechanism since April 2003, to enable its employees and others associated with the company to not overlook any concern but instead raise it at early stage in the right manner, without fear of retaliation, victimization, subsequent discrimination or disadvantage at the workplace. Wipro does not tolerate any malpractice, impropriety, abuse or wrongdoing or discrimination or harassment and encourages its employees to raise their concerns. The organization ensures that such concerns would be thoroughly inquired by the designated persons independently and fairly. While the company considers the malpractices or wrongdoing or abuse or harassments in general, it is also conscious of the likelihood of any direct or indirect discrimination or denial of reasonable accommodation or bullying behavior towards employees with disability and would treat such instances also, as malpractice, abuse or harassment, as the case may be.

The organization will follow the same procedure for inquiring and investigating the complaints or concerns raised by employees with disability. However, necessary reasonable accommodation will be provided to employees with disabilities to effectively participate in the investigation process. For example, sign language interpreter for persons with deafness, accessible venue for persons with locomotor disability, etc.

For complaints related to or raised by an employee with disability, the Global Lead, Persons with Disability, will be consulted and involved by the Grievance Team to conduct the investigation.

Employees can reach out to their manager / HR manager to voice concerns. In case the issue is still not resolved, they can raise an Ombuds (refer myPolicies > Common Policies across Geos > Ombuds Process).

If an employee raises a concern, she/he will not be under any risk in the form of retribution or retaliation. The company will not tolerate any harassment or victimization (informal pressures) against any employees raising concerns who have a genuine case and will take appropriate action accordingly.
